Alarm

00176590 Smart Alarm Siren, 97.4 dB, Sound and Flashing Light, for Voice / App Control

Highlightstext:

- Alarm siren with extras: for more security in a smart home and more support thanks to various notification ring tones in combination with other Smart Home systems
- Our alarm siren works without any gateway (hub): you don't need an additional device and you save on extra costs since the WLAN siren establishes a direct WiFi connection with the router
- Extra-loud: at 97.4 dB, the alarm siren will drive away not only unwanted visitors, but the loud alarm will also immediately alert you and your neighbours
- Ding dong: with ten different alert tones, the alarm system can function as a notification medium in combination with other smart products, such as time to ventilate the room, or if someone walks into the store
- For a better room climate: sensors for temperature and ambient humidity, together with the Hama Smart Home app, help you ventilate and heat spaces correctly
- Step by step to the Smart Home: with the Hama Smart Home app, you can expand and network your smart home with any number of Hama Smart Home products
- With the Hama Smart Home app, create all kinds of alarm scenarios and conveniently activate or deactivate them via the app or voice command
- Simple installation on your own WiFi network: since no hub is required, your devices can be set up in just a few minutes
- High compatibility: works with Amazon Alexa, Google Assistant, Amazon Echo Show and Google Nest Hub, iOS and Android. Can also be connected to all Alexa and Google Assistant-compatible smart home products from other manufacturers
- The perfect addition: the WLAN alarm is ideal for intelligently extending an apartment or house. People with physical impairments can benefit from programming to specific voice commands, e.g. alert, if help is required
- Can be used in many ways as an alarm: e.g. in combination with a smart door/window contact - if the cellar door or a window is opened unexpectedly, the alarm sounds. The alarm duration can be set
- Can be used in a variety of ways to issue alerts: various ring tones can be set, e.g. washing machine on WLAN socket - the selected tone sounds when the washing machine is finished. For sleepyheads, it can be used as an alarm clock
- For a better room climate: define the values for ambient humidity and temperature in the Hama Smart Solution app. If the values move outside these ranges, the ring tone sounds
- Audible and optical signal: in addition to the audible alarm, a red flashing LED light also illuminates
- Suitable for indoor use
- Your data is stored exclusively on German servers

System Requirements:
- Operating system: Android 4.4 and iOS 8.0 or later

Note for Consumers:
- Voltage supply via micro-USB socket (e.g. in combination with a socket adapter for power supply via the socket).

Amazon Alexa:
the required Alexa skill "Hama Smart Home" must be activated in the Alexa app. The user account for the Hama Smart Home app is then connected to Alexa.
This allows the devices to be controlled via voice control (switching on/off).

Google Assistant:
the "Hama Smart Home" service must be activated in the Google Home app for this. The user account for the Hama Smart Home app is then connected to Google.
This allows the devices to be controlled via voice control (switching on/off).

00176590 Smart Alarm Siren, 97.4 dB, Sound and Flashing Light, for Voice / App Control

Technical characteristics:

- Product Division: Home & Living
- Shade of colour: White
- Signal Transmission: WiFi
- Compatible operating systems: Apple iOS 8.0
- Radiated max. transmission power: 0.1 W
- Additional Functions: Moisturizing and temperature sensor, Volume control
- Loudness of Signal Tone: 97.4 dB
- Material: Plastic Material
- Type: Alarm System
- Voice Assistant: Amazon Alexa/Apple Siri (Shortcuts)/Google Home
- Battery Type: CR123A
- Power Supply: Battery/Universal Power Supply
- App Control: Hama Smart Home

Delivery:

- 1 smart alarm siren
- 1 USB cable
- Mounting hardware
- 1 quick-start guide
