

# Maximize Uptime with ProSupport Suite for PCs

Self-healing automation,  
proactive monitoring and  
essential PC support services

# AI-driven technology, self-healing automation and efficient support for today's modern workforce

Work happens everywhere, all the time. And IT teams don't need to just keep up, they need to stay ahead.

You need to be able to automate fixes, pinpoint and resolve developing issues remotely and see a holistic view of what's happening in your fleet of PCs.

And, you also want to make updates and optimizations remotely and in a customizable way, all while keeping your employees productive and free of frustration.

You need smarter support with **ProSupport Suite for PCs**.

**A Forrester Consulting thought leadership study of IT leaders revealed:**

**79%**

need capabilities to improve and deliver a better end-user experience<sup>1</sup>

**77%**

want automated tools and technologies to allow their staff to spend more time on innovation<sup>1</sup>

**63%**

prioritize services that leverage AI-powered proactive, predictive, prescriptive capabilities<sup>1</sup>

**53%**

need to reduce complexity to free up their IT staff to innovate and focus on strategic projects and initiatives<sup>1</sup>

# AI drives modern support

Using AI is not new for Dell. SupportAssist, the AI technology behind ProSupport Suite, has been automating PC support tasks since 2015. With SupportAssist, you can get a holistic view of your PC fleet to manage tasks, optimize performance and resolve issues before they occur.

**Now with self-healing automation**, AI triggers self-healing capabilities to fix PC issues without human involvement.

## PROSUPPORT PLUS FOR PCs

- Offers the most comprehensive capabilities in a single solution – without the need to stack services<sup>2</sup>
- Save up to 641 hours of admin time per year on recurring tasks for a 1,000-device fleet<sup>3</sup>
- Initiate device driver and firmware updates for an entire fleet in as little as 37 seconds<sup>3</sup>

2015

# Dell ProSupport Suite for PCs

1,000 devices required

## Self-Healing Automations *via SupportAssist AI Technology*

		ProSupport	ProSupport Plus	ProSupport Flex
Library of Dell-authored scripts to automate tasks and remediate issues	Choose from a list of scripts (code that automates processes) to detect and fix problems such as blue screen errors and more.		✓	✓
Automated PC optimizations	Perform automatic software optimizations to clean files, tune performance, optimize networks and remove viruses and malware.		✓	✓
Custom catalogs for remote BIOS, driver and firmware updates	Generate update catalogs with your specs and deploy remotely from TechDirect portal.		✓	✓

## Proactive Monitoring *via SupportAssist AI Technology*

Customizable dashboard in TechDirect portal	View in-depth details and trends in an easy format that you can adjust based on your needs.	✓	✓	✓
Fleetwide view of security, health and application experience scores	See a security risk assessment, performance health, and crash analysis for OS and applications.	✓	✓	✓
Proactive and predictive hardware alerts with auto dispatch	Get proactive alerts that automatically detect issues and create a support case. Go a step further with predictive, AI-powered alerts that resolve detected issues by identifying the proper replacement part and shipping it to you.	✓	✓	✓
System-level performance and utilization metrics	Monitor hardware and software utilization, device stability, device age, and security details of individual devices.	✓	✓	✓
BIOS, driver, firmware and application version tracking for compliance	See version data and details for organizational compliance-related needs.	✓	✓	✓
PC inventory with sites and grouping for asset management	Organize your fleet for easy tracking.	✓	✓	✓

## Support Essentials

Technical support with AI-driven troubleshooting tools	Get efficient problem solving from tech support agents who are leveraging AI-based recommendations.	24x7	24x7	24x7
In-region ProSupport expert assistance for hardware and software issues	Direct access to in-region ProSupport engineers trained in compatibility, interoperability and software.	✓	Priority access	✓
Next business day onsite repair <sup>4</sup>	Get NBD onsite hardware repair after remote diagnosis.	✓	✓	✓
International travel support	Support for end users who are traveling internationally outside of their home country.	✓	✓	✓
Technical Customer Success Manager	Benefit from a primary point of contact that helps throughout the lifecycle of entitled devices, develops a tailored success plan and educates on technologies and services.		500 system minimum	✓
Keep Your Hard Drive Service	Retain your hard drive and its data if a replacement is needed. KYHD helps with security and compliance requirements (GDPR and HIPPA, for example).		✓	Optional
Accidental damage coverage <sup>5</sup>	Covers drops, spills and surges. Excludes theft, loss, and damage due to fire, flood, or other acts of nature, or intentional damage.		✓	Optional
Extended Battery Service	Entitles you to a single battery replacement in case of failure after the first year.		Optional	Optional
Term-based subscription	Spread support costs over the lifecycle of the devices with annual and monthly payment options (direct customers in US and Canada).		US and Canada	US and Canada

### Flexible

options to extend capabilities as you need

### Supplement

your in-house IT with additional support features

### Tailored

for customers with a minimum of 1,000 devices

# Connect to SupportAssist for a richer experience

Connect to **SupportAssist for Business PCs** through our online portal **TechDirect**. By connecting you get access to our robust self-healing automations and proactive monitoring capabilities.

## Data is the lifeblood of our SupportAssist software and vital for our AI platform.

We leverage system data from customer environments with gold-standard security for transport and storage, and correlate it with years of incident and engineering data from field and tech-support teams as well as manufacturers. But it's not enough to have billions of data points; it's what you do with them that counts.

Using sophisticated AI models, SupportAssist

can find and apply patterns to detect accurately the first time the right problem to address. It's how we cut through the noise of monitoring billions of events daily to resolve issues before they slow your employees down.

SupportAssist is our smart technology behind ProSupport Suite for PCs that keeps your PC fleet confidently running its best. SupportAssist is configured and deployed from your self-serve portal, TechDirect.

### SUPPORTASSIST ENABLES YOU TO:

- Simplify PC monitoring, tracking, and management
- Predict issues before they cause frustration
- Anticipate your team's needs
- Deliver a hassle-free experience anytime, anywhere

**1**  
**Choose Your Ideal Support Offer**
