

# EcoTank ET-M1140

## DATASHEET / BROCHURE

Reduce your printing costs with EcoTank and print up to 11,000 pages with the included black ink<sup>1</sup>. Save paper with double-sided printing.

This EcoTank with refillable ink tank can help you reduce your printing costs. It's durable, fast and energy-efficient. A cost-efficient solution, print up to 11,000 pages with the included black ink<sup>1</sup>. Save time with print speeds of 20ppm<sup>2</sup>, and save paper with automatic double-sided printing. The ET-M1140 connects to computers via USB and has a 250-sheet paper tray.

### Reduce your printing costs

The economical EcoTank is fundamentally different to laser printers. It features a large refillable ink tank that you fill with the included ink bottles instead of toner. From the start you have enough ink to print thousands of pages, slashing costs and saving time as you're not frequently changing toner.

### Low cost replacements

While refills are likely to be few and far between, you'll be able to save over 90% on the cost per page with replacement ink bottles<sup>3</sup>.

### Reliable

Giving peace of mind, every EcoTank mono printer comes with a one-year/100,000-page warranty.

### Save time

Don't waste time changing supplies - with an ink tank system you can essentially fill it up and forget about it. Printing is fast with no warm-up time and speeds of 20ppm<sup>2</sup>.

### Save energy

Cut energy usage and reduce overheads with an EcoTank mono printer. It can save up to 95%<sup>4</sup> in power consumption compared to mono laser printers.

### Efficient business features

Experience the PrecisionCore printhead that's renowned for its speed, quality, reliability and efficiency. Replace paper less often with the 250-sheet tray and save paper with automatic double-sided printing.

\* Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 19752. 11,000 pages yield based on two ink bottles included with this printer. 6,000 pages yield based on EcoTank ET-MX1XX Series Black Bottle XL ink bottle sold separately. Quoted yields are NOT based on ISO/IEC24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature.

1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test patterns provided in ISO/IEC 19752. Quote yields are NOT based on ISO/IEC 24711. Quote yields may vary depending on the images you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
2. Determined in accordance with ISO/IEC 24734 showing the average of ESAT from the Office Category Test for default simplex. For more information visit [www.Epson.eu/testing](http://www.Epson.eu/testing)
3. Taking the RRP of the mono EcoTank replacement ink bottles and comparing printing costs calculated on the largest available yield toner divided by the average selling price in the Western European market listed in IDC EMEA Semiannual Consumables Tracker 2018H1 for the 12 months to June 2018 (including VAT at 21%). Toner yields as communicated by the manufacturers websites.
4. Comparison of the power consumption while printing of the Epson ET-M1120, ET-M2170 and ET-M3170 models against the average top selling 75% of A4 monochrome laser printers (below 20ppm class) listed in IDC Worldwide Quarterly Hardcopy Peripherals Tracker 2018Q3 data for the 12 months ending September 2018. Power consumption values as communicated by the manufacturers websites.
