

EVOLVE2 BUDS

Professional,
pocketable calls.
True wireless earbuds
engineered for
hybrid working.

Technology for
life's new rhythm

ADVANCED BLUETOOTH MULTIPOINT

Working in multiple locations means juggling multiple devices. Advanced Bluetooth Multipoint makes it easy, by keeping you connected to both your laptop and smartphone at the same time. **Switching things up has never been easier.**

UNIFIED COMMUNICATIONS (UC)

Using a certified device with your virtual meeting (UC) platforms makes your experience better. Evolve2 Buds are specifically designed, optimized, and certified for use with your platforms – the secret ingredient is the professional USB adapter. **Better connection. Better call quality.**

JABRA MULTISENSOR VOICE™

Taking work calls on the go can come with a lot of background noise. Jabra MultiSensor Voice™ uses a clever combination of four microphones, bone conduction sensors, and advanced algorithms, to reduce disruptive background noise. **It opens up a lot more possibilities for where you take your next call.**

PLUG-AND-PLAY USB

This powerful little USB adapter boosts your connection and makes it more stable, with fewer dropouts, and up to 20 meters / 65 feet wireless range. **It's your new secret weapon.**

ULTRA-COMPACT DESIGN

Our database of 62,000 ear scans is probably one of the largest in the world. This, combined with our unique statistical modeling methods, allows us to create our tiny earbud designs that fit like they were made for you. **Ultra-small and durable, these water-resistant buds can go with you rain or shine.**

UP TO 33 HOURS BATTERY

With their pocket-friendly case, Evolve2 Buds are good for up to 33 hours, and if you do run low, a super-rapid charge feature will win you back an hour of power in just five minutes. The case is Qi-certified for wireless charging, and if you buy the bundle, the wireless charging pad's included. **They work as hard as you do.**

NOISE CANCELLATION

The winning combination of a snug, noise-isolating fit and Active Noise Cancellation (ANC) help you find a quiet moment whenever (and wherever) you need one. Use the MyFit feature in the Jabra Sound+ app to find your optimal seal for maximum ANC performance. **It's time to reclaim your thinking space.**

HEARTHROUGH

Intuitive HearThrough technology uses the built-in microphones to pick up the sounds around you and play them in your ears, all without ever needing to remove a bud. **Perfect for coffee orders, boarding calls, and "where's the nearest metro station?"**

HEARING PROTECTION

When you spend a lot of time on calls, you need to protect your hearing. Jabra SafeTone™ and SafeTone™ G616 monitor average audio levels and include PeakStop™ to protect your ears from sudden loud audio spikes. **So you can relax, we've got you.**

HOW TO CHARGE

- Up to 8 hours battery
- 3 full charges on-the-go

Get the wireless charging pad included when buying the bundle

HOW TO CONNECT TO LAPTOP

To connect to your laptop, plug in the pre-paired USB adapter and you're ready to go.

Plug-and-play
