USB Cable

00074255 USB Type-C Cable, with LED Indicator, black, 1 m

Highlightstext:

- For the connection of digital cameras or camcorders with specific USB-C connection to the PC
- Sturdy plugs and moulded strain reliefs, high mechanical resistance
- LED function indicator gives information about the charge state
- Red LED display: during charging / green LED display: when almost fully charged

Note for Consumers:
Since modern smartphones and other devices are able to manage the amount of charging current they need themselves, it is possible that this LED may flicker or briefly jump from green to red, depending on the current required by the device.
This can also occur if a device is woken up from sleep and used during the charging process. The power requirement then briefly increases.

Technical characteristics:

- Connection: USB-C-plug
- USB Standard: USB 2.0
- Nickel: Yes
- Torsion: Yes
- Length: 1 m
- Max. Data Transfer Rate: 480 MBit/s
