Fully wireless and fully sized, the Full-Size Multi-Device Bluetooth® Antimicrobial Keyboard was made to deliver a comfortable typing experience and help you get the job done. Designed for the modern multi-device and 'clean desk' work space philosophy, you can connect and toggle between upto 3 devices seamlessly without the need to worry about re-connecting a cable, all thanks to its reliable and power saving Bluetooth® 5.1 technology.

Long lasting standby and working time** combined with robust, durable design ensure stress free working even for hybrid workers travelling between work spaces. Plus added protection of Targus DefenseGuard™ Antimicrobial technology that works continuously to protect the keyboard by preventing the growth of microorganisms. Unlike topically applied sprays, DefenseGuard™ keyboards are treated with an antimicrobial additive that does not wear off and lasts for the life of the product. Ideal for a busy modern office or shared work space at home.

*Antimicrobial protection is limited to the device itself. This keyboard has been infused with an antimicrobial additive. Active ingredient: Silver Phosphate Glass (nano-). EPA Est/ 99234-CA-1

**Using supplied AAA Alkaline batteries. Standby and working time tested to Targus standards based on average usage. Can varies dependant on ambient conditions and individual working methods.
