

DATASHEET

Duplex Patchcable E2000®/APC-E2000®/APC OS2 G657A1 1m LSZH 3mm yellow

General data

Fiber jumper are well defined components in international standard of structured cabling ISO/IEC11801. Due to many different network protocols created in the last 25 years , also a wide range of connectors had been developed. Some of them are still important today: LC, SC, E2000®, MPO/MTP.

Fiber jumper (patchcord) are defined as shortest connection between passive interface and active deviceport, regarding structured cabling standard. Rating of performance, known as category, as well as performance of total transmission channel, known as link class, Similar descriptions for patchcords: Connection cable, drop cable, adapter cable, interconnecting cord, Jumper

Available variants

ArtNr.	Bezeichnung	APC-version connection 1	APC-version connection 2	Length	Outer diameter sheath single fibre	Length tolerance
--------	-------------	-----------------------------	-----------------------------	--------	--	---------------------
