

# Trapezium Wrist Rest Standard

 BAKKER ELKHUIZEN

*Work Smart - Feel Good*

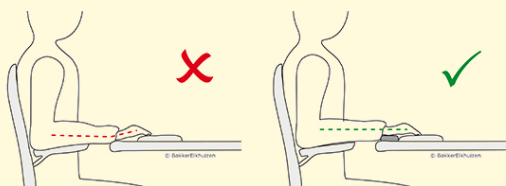

## The perfect wrist rest for today's keyboards

The Trapezium Wrist Rest Standard keeps the wrist properly aligned with the hand. This reduces muscle strain and provides a healthy guide when typing.

The standard sized Trapezium works with usual sized keyboards found with desktop PC's. It measures 19.25 inches.

When working with a keyboard and mouse it is important that the arm is sufficiently supported. A wrist support helps to keep the wrist straight during typing and can be used "to rest" for a moment during one's work.
