Media Converter MM

Article number: 211351

Extending an existing network can make it necessary to use several media converters. This space-saving 482.6 mm (19") rack solution allows you to monitor all connections centrally. Exchanging modules is very easy and also possible during operation. The converters come with an external power supply allowing them to be used as stand-alone units.

- Stand-alone module
- Multi-mode up to 2000m
- 10/100 Mbps dual speed
- Space-saving design
- With single mode up to 25 km
- Power supply via rack

Specifications
