

Flipchart MAULsolid, round base flip2use

- **Special: portrait or landscape format by simply rotating the board 90°**
- **Usable as a flipchart in portrait format and as a projection board in both portrait and landscape formats**
- **Also suitable for ultra-short-throw projectors**
- **Durable: very stable, abrasion-resistant plastic joint**
- **Designed by MAUL: developed and engineered in Germany**
- **Mobile: easy to move without effort thanks to the round base and 5 lockable castors**
- **Adjustable: board height continuously adjustable (from the front) in portrait format from 154–196 cm, landscape format 136–176 cm (lower/upper position). Does not lower unintentionally**
- **Very stable: base Ø 63 cm and column made of strong steel tube**
- Foldable, large aluminium tray for pens and accessories
- Easy to rotate: slightly loosen the star knobs, rotate the flipchart, then tighten the star knobs again
- Board 66 x 97 cm, made of plastic-coated steel sheet, magnetic surface
- Flexible: paper pad holder, horizontally adjustable for all standard pad formats (pad item no. 638 78 02)
- Cover flap with spring mechanism for flat positioning of the pad in portrait format and for holding it open during pad change, also serves as a paper tear-off edge
- Recyclable packaging
- Guarantee: 2 years
