Connector Port Doubler RJ45 STP

Article number: 185688

With the Y-socket doubler you can run 2 network connections via 1 twisted-pair cable. It uses the normally not-used conductor pair, thus saving you time and additional installation costs. Ideal for expanding an RJ45 socket. Suitable for 10/100 Mbps speed.

- Connection cable with RJ45 male; adapter with two RJ45 females
- Circuit diagram on the adapter
- Socket doublers can only be used in pairs

Specifications
