WARRANTY	Limited Lifetime warranty
----------	---------------------------

Packed with clever features including covered screen protection and an integrated stylus holder (Pencil sold separately by Apple®), this case delivers. Better yet, enjoy hands-free viewing thanks to the integrated kickstand. And for those on the move or those little hands that need a little more support –the adjustable silicone hand strap delivers peace of mind by keeping your iPad more accessible and secure.

Military Grade Protection

From drops to fluid contamination, this case is protected. This case passes rigorous MIL-STD-810G testing to ensure it can defend your iPad from drops up to 5.9 feet (1.8 meters). And it successfully passes MIL-STD-810H Method 504.3 Contamination by Fluids testing, ensuring compatibility with a diverse range of cleaners, disinfectants, and solvents—including alcohol and bleach—without compromising integrity or performance. It's even made from non-porous materials making it better protected from spilled liquids and easier to clean.

Integrated Stand for Adjustable Angles

With a built-in stand, you can adjust the viewing angle without removing the case, making it easy to watch the screen at nearly any angle. Integrated into its back cover, the durable kickstand flips out to offer hands-free viewing in landscape mode.

Clear Coverage

The SafePort® Case's back cover is made with a clear, shock-absorbent TPU, so you can show off the color of your iPad® (and asset tag if necessary) while keeping it securely wrapped in protection.

* As tested by an independent third party applying MIL-STD-810G, Method 516.6, Procedure IV.

** As tested by an independent third party applying MIL-STD-810G, Method 504.3.
