Data Sheet

The REINER SCT FIDO Stick Pro USB-C is your powerful companion for ultimate security and convenience. With plug-and-play support for FIDO2 and U2F-compatible services like Google, Microsoft, or AWS, it enables fast and hassle-free two-factor authentication. Thanks to NFC, you can also authenticate on mobile devices with a simple tap.

The slim, portable stick fits on any keyring and is always ready to use—without the need for power or a network connection. Its robust, waterproof housing and advanced cryptographic technology provide long-lasting protection.

Developed and manufactured in Germany, the REINER SCT FIDO Stick Pro USB-C represents quality and reliability.

The Highlights

■ Protection against phishing and digital attacks

■ Support for the latest authentication standards

■ Compatible with Windows, macOS, Linux, and mobile devices

■ Easy plug-and-play operation without additional software installation

■ Ideal for use on the go
