Weight (lbs)	2.2
Material	Aluminium

Key Features

- Sleek metal frame
- Quick keyed access
- Compatible with VESA 100X100 and VESA 75X75
- Exposed front and back cameras and sensors

Product Description

The Apex iPad enclosure combines a sleek metal frame with practical features designed for business use, including quick keyed access and charging cable access. Its design keeps the iPad's front and back cameras and sensors exposed for uninterrupted functionality, enhancing user interaction. With the option for direct wall mounting, the Apex provides versatility and security, making it an ideal solution for displaying iPads in any business environment.
