HyperDrive 4K Multi-Display Docking Station For 13-16-inch MacBooks®

Designed for elite creatives, video editors, or business professionals, the 4K Multi-Display Docking Station for 13-16-inch MacBooks® provides maximum connectivity by allowing driverless, native triple 4K 60 Hz display support and features 15 ports for peripheral expansion.

Unlike most competitors that force you into using certain ports to connect, HyperDrive features three HDMI and three DisplayPorts so users have the flexibility to create any setup they wish. It's constructed from precision-milled Aluminium and fits underneath the chassis of a MacBook®, providing ergonomic benefits, dissipating heat, and decreasing desk clutter. Lastly, the docking station features a detachable magnetic hub that you can remove to provide compatibility and dual display connectivity for 13-14-inch MacBooks®.

Connect Up To 3 Displays at 4K 60 Hz -
 Give your 13-16-inch MacBook®, Chromebook™ or PC the ability to connect to 3 extended displays with native 4K HDMI/DP video.

Use HDMI Or DisplayPort -
 Whether you need to connect to an HDMI or DisplayPort monitor, our 3x HDMI ports or 3x DisplayPorts give you the flexibility to support triple displays, your way.

Easy Driverless Setup -
 Forget about having to download additional software, simply just plug and play, and you're ready to go.

Enjoy 15 Essential Ports -
 Expand your 13-16-inch Macbook®'s connectivity with 15 ports including HDMI 4K 60 Hz x 3, DP 4K 60 Hz x 3, MicroSD/ SD slots, 1 Gb Ethernet, USB-C 10 Gbps x 2, USB-C PD 100 W, USB-A 10 Gbps x 1, and USB-A 5 Gbps x 2.

Ergonomic, Heat Dissipating Design -
 Our advanced ergonomic design fits seamlessly underneath your 13-16-inch MacBook®'s chassis, elevating your device for a more pleasant user experience while allowing for better heat dissipation.

Also Works With 13-14-inch MacBooks® -
 The modular design allows you to remove the small magnetic hub attachment for dual display support and compatibility with 13-14-inch MacBooks®.
