

## WHAT IS OTTERBOX CERTIFIED DROP+ PROTECTION?

At OtterBox, we have a team of engineers who are passionate about crafting great products.

Our tireless development and design efforts have resulted in **300+ patents**. We test each design and material to make sure the products you need stand up to your daily life. Each design goes through a minimum of **238+ hours of testing** across **24+ different tests**.

### TESTED BY US.

Our certification seal shows that every product we make is backed by OtterBox-tested protection you can trust.

**24+  
tests**

**300+  
patents**

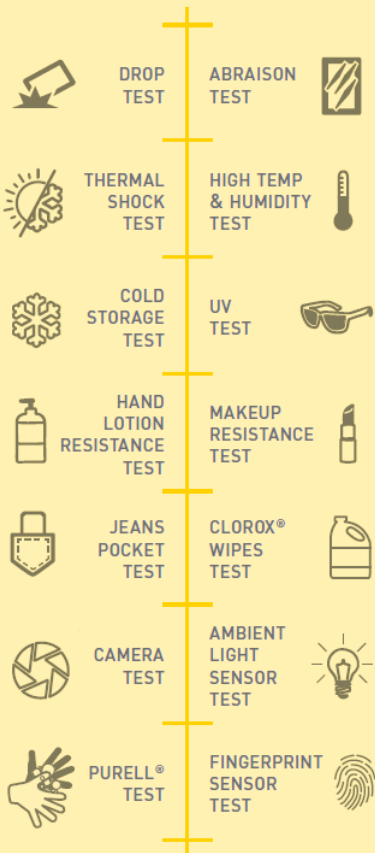

**238+  
test hours**

### BUILT FOR YOU.

After all our tests are run and our products are in your hands, what matters most are the success stories that come from real life, protecting your phone when it counts.

## THE TESTS

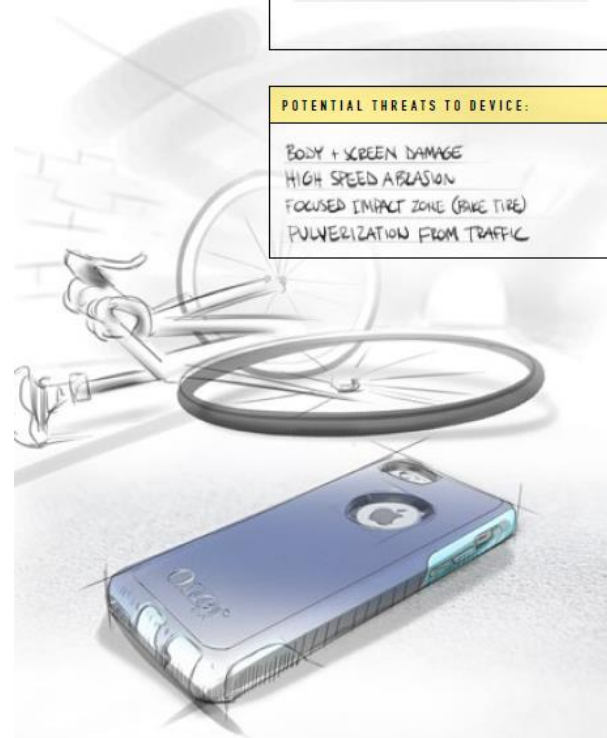

**TOP SECRET**

### SCENARIO #2

#### BIKE CRASH IMPACT

#### POTENTIAL THREATS TO DEVICE:

BODY + SCREEN DAMAGE  
HIGH SPEED ABRASION  
FOCUSED IMPACT ZONE (PAKE TIRE)  
POWERIZATION FROM TRAFFIC

"... crashing into the concrete wall on a bike ride, my phone was in much better shape than I was. I'm positive I would have had to purchase a new phone had it not been for the Otterbox case."
