PRODUCT DESCRIPTION

The Apple TV Lock and Mount security bracket can be fixed to any flat surface. You can safely screw the Mount to a wall, desk, underside of a table, cabinet, and even the back of a monitor. Once the bracket is secured all you need to do is slide your Apple TV into the Mount and connect the lock.

The ventilated design protects your device against overheating and wireless signal loss while giving you total access to the power button, USB, HDMI & Ethernet ports to ensure complete user experience.
