SAMSUNG

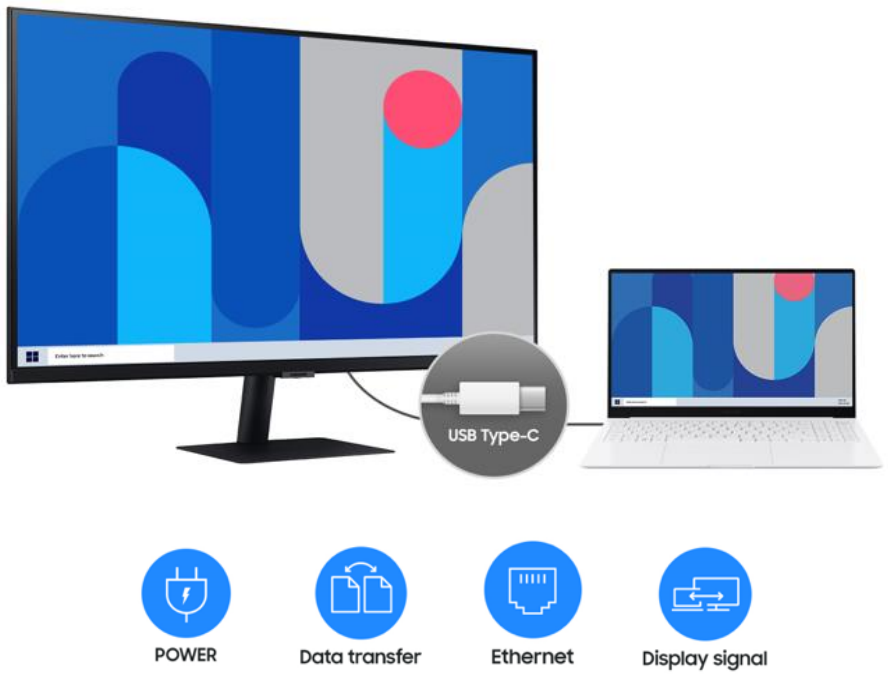
More than just a device manufacturer

One Samsung: Laptop/mobile with monitor

Multitasking made easy!



USB-C provides up to 90W power delivery for fast charging, high-speed data transfer, video signals. But also, with USB-hub at the back of our docking monitors your laptop can connect to everything else, e.g. keyboard, mouse, storage devices, printers etc. **All from one cable!**

With DeX, you can connect selected supported Samsung devices to an external monitor to multitask with multiple apps and windows. Type with a keyboard and control with a mouse for a PC-like experience.

SAMSUNG

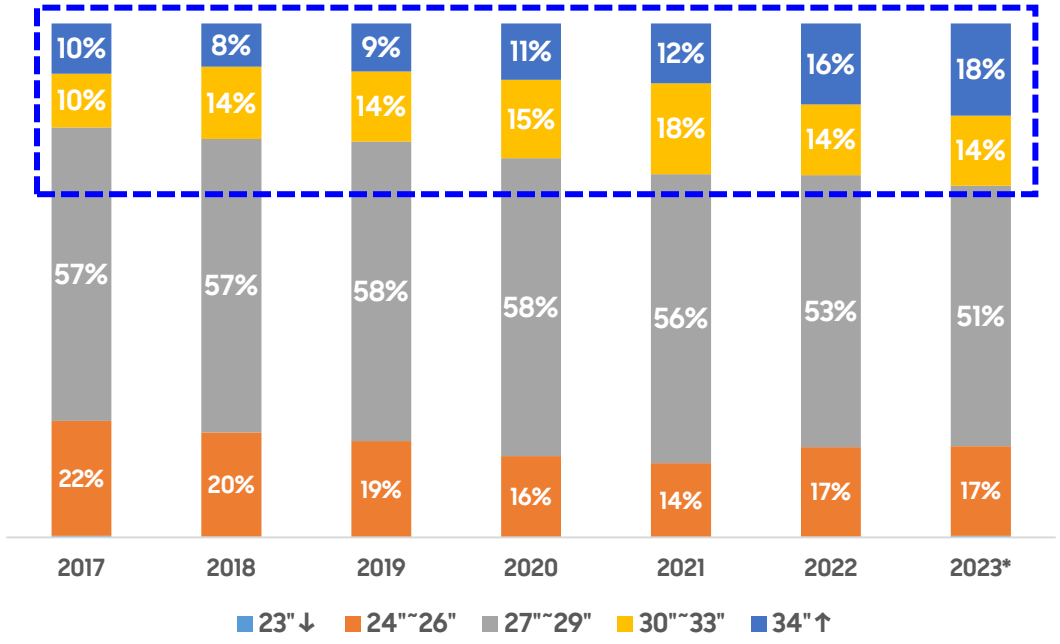
Screen Size & Value Development

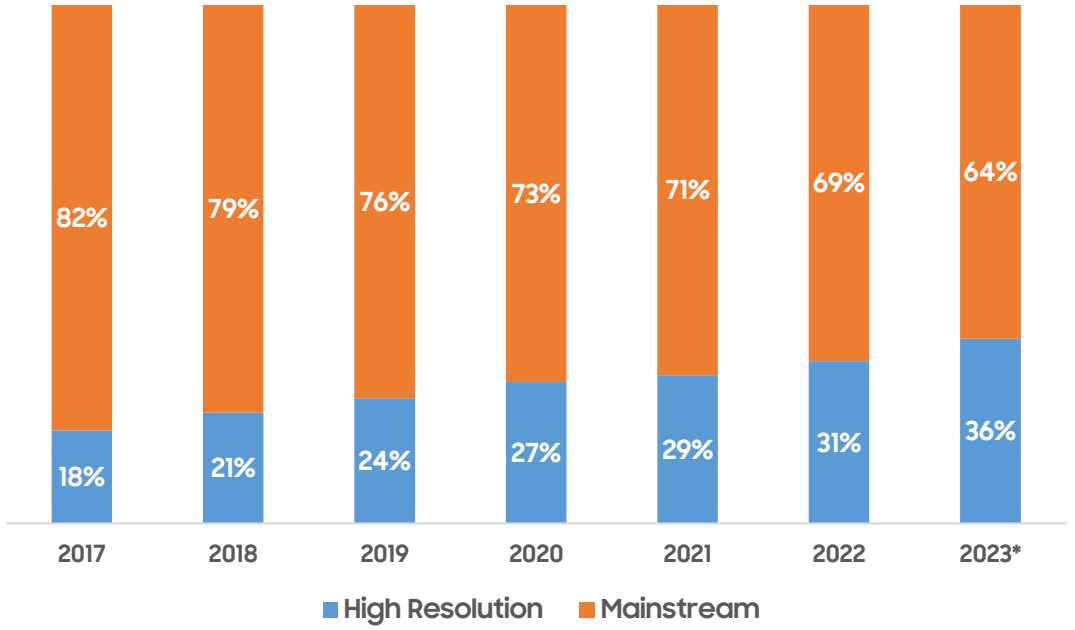
IDC: Units Sold by Screen Size in Europe* (High Resolution)



Comments:

- 27” remains as the most popular screen size
- High Resolution excluding gaming monitors (>=144hz refresh rates)

IDC: Monitors Sold (Value US$) by Screen Resolution in Europe*



Comments:

- HRM models pushed FHD below 70% FHD sales for the second year in a row
- Data excludes gaming monitors (>144hz refresh rates)

*Sell In data from all manufactures reported by IDC on full year (2023) report.

SAMSUNG

The workplace experience

How employers are responding to various user types

Walk-in & WFH users

Any user can take any available desk or work from home and get to productivity state instantly. All the devices are connected via a single cable

Always-in users

Dedicated workplaces for users who spend the whole day at the desk. Ergonomics is critical to reduce fatigue and maximize user productivity

Office commuters

Those who move around the office between meetings and conference calls. Once they're on their workplace, they need to connect quickly and charge their laptop before the next meeting.

Power users

Users with specific needs like engineers, architects, designers, or executives with dedicated offices. Normally requiring special visual specifications.

Improving workplace well-being

Employees expectations are a greater consideration for employers

Deloitte identifies three pillars on which to build or expand a culture of well-being:

Work

Integrating well-being into the design of work. For example, using technology to promote collaboration.

Workforce

Providing the right mix of benefits, programs & policies. For example, enhanced return-to-work programs.

Workplace

Providing the right mix of benefits, programs & policies. For example, enhanced return-to-work programs.

Employee well-being

70%

Organizations made additional investments in employee well-being over the last 2 years[1]

53%

Of employers have a well-being policy[2]

[1] www.gartner.com/smarterwithgartner/9-future-of-work-trends-post-covid-19, [2] Vangronsvelt, Kathleen, PhD, Eva Geluk, Slechts 4 op 10 werknemers vindt werkdruk redelijk, Antwerp Management School, 4 September 2023 Deloitte, Well-being: A new cornerstone for ESG strategy and reporting, January 2022.

Taking steps towards a more eco-conscious workplace

Corporate Sustainability Reporting Directive (CSRD)
The EU's CSRD came into effect on Jan 1st 2023 (into local law from 6.7.24). Companies are required to disclose sustainability-related information following European Sustainability Reporting Standards (ESRS) to promote comparability. The directive is unfolding in three stages, with the size of enterprises determining when they need to comply.

From 1 January 2024
(To be reported in '25 on data from '24)
Companies that are already subject to the NFRD. These are companies defined as a public interest organization with more than 500 employees.

From 1 January 2025
(To be reported in '26 on data from '25)
Large companies that exceed at least two of the following three criteria: more than 250 employees, more than €40 million in turnover, more than €20 million in total assets.

From 1 January 2026
(To be reported in '27 on data from '26)
Listed SMEs, as well as small and non-complex credit institutions (excluding listed micro-enterprises), but with a two-year opt-out option.

From '28
(Report in '29 on data from '28) For non-European companies, the obligation to submit a sustainability report applies to all companies with a net turnover of €150 million in the EU and that have at least one subsidiary or branch within the EU.

Small changes trigger positive outcomes!

For more information on on CSRD legislation visit: finance.ec.europa.eu/capital-markets-union-and-financial-markets/company-reporting-and-auditing/company-reporting/corporate-sustainability-reporting_en Samsung can provide all data required to comply with CSRD regulations here: https://icecat.biz/search?keyword=Samsung%20viewfinity&supplierLocalName=Samsung

SAMSUNG

Value proposition

For life.
For work.

Monitors for Professionals

Samsung’s innovative business monitors balance life and work easily with high-end business features and specs, wrapped up in beautiful, ergonomic, human-friendly design.

SAMSUNG

Delivering Samsung's Brand Value to business users

Samsung Monitors for Professionals value proposition

Experience

From the design of the bezels to intuitive tools, our monitors offer enhanced user experience.

- ✓ **Flat and curved displays** (up to 1000R curvature)
- ✓ **Connectivity** (USB-C/Thunderbolt™, LAN, DisplayPort, etc.)
- ✓ **Wide color gamut** (up to 98% DCI-P3)
- ✓ **Color support** (up to 1.07 billion colors)
- ✓ **Multitasking tools** (Picture-by-Picture, Picture-in-Picture)
- ✓ **New Design** (Flat back & Thin metal base)

Well-being

Our products maximize viewing comfort, while protecting against eye strain.

- ✓ **Adaptive picture** (adjust brightness & color)
- ✓ **Eye Saver Mode** (reduces blue light emissions)
- ✓ **Flicker Free** (no flickering screens)
- ✓ **Ergonomic stand** (HAS, tilt, swivel, pivot, VESA)
- ✓ **Easy Setup Stand** (No screws or any tools required for assembly)

Eco-steps

Together we're working to push technology forward with more environmentally conscious innovations.

- ✓ **Eco Saving Plus/Save Energy**[1] (up to 10% less energy)
- ✓ **Our packaging**[2] (reduced plastics and oil-based ink)
- ✓ **Industry certifications** (TCO Certified[3], EPEAT[4])
- ✓ **Increased recycled plastic in manufacturing to 15%**[5]
- ✓ **Staple free packaging** (easier recycling)[6]
- ✓ **Zero Chemical Coatings** (easier recycling)[6]

[1]Based on internal testing data of S80PB, S80TB and T45F monitors only. Testing compared energy usage of these models with Eco Saving Plus, also known as Save Energy on newer models, mode switched on High setting and switched off. Actual energy savings may vary based on usage conditions, brightness levels, and model selected. Eco Saving Plus is not available in Dynamic Contrast Mode, Game Mode, Eye Saver Mode, or when PIP/PBP Mode is on. [2]Samsung's commitment to phasing out plastic packaging includes monitor display boxes for S80UA and S60UA models only. We have replaced plastic and shrink wrap in the distribution stage and the boxes are designed with minimal text and graphic imagery to reduce oil-based ink use. [3]See www.tcocertified.com for more information. [4]See www.epeat.net for more information. [5]S43GC built using 84% recycled plastics. [6]All models are staple free. All models which use 'plastic' materials are chemical spray-free.

SAMSUNG

SAMSUNG

presents

SAMSUNG

Monitors for Professionals

The Samsung range of monitors offer a wide choice to help you get the perfect display to suit your needs. One of the first decisions to make is, which screen resolution do you want to go for?

We made it easy for you to pick, with the range split between essential use for great visuals, modern design and innovative technology. Our ViewFinity range offers improvements in resolution, colour reproduction and user well-being.

ViewFinity

The power to perfect professionals

Productive, precise, powerful. Samsung's high resolution ViewFinity monitors deliver innovative experiences that can unlock the potential of business professionals, content creators, and even graphic designers, with technology that brings any vision to life like never seen before.

High resolution

More pixels show more detail, and the wider workspace allows you to view more content with less scrolling and zooming.

1 Billion Colors

Pro-level color expression

With up to 64x more colors, wider color gamut, and more refined shades than conventional monitors to enable the ultimate color precision and accuracy.

Superior connectivity

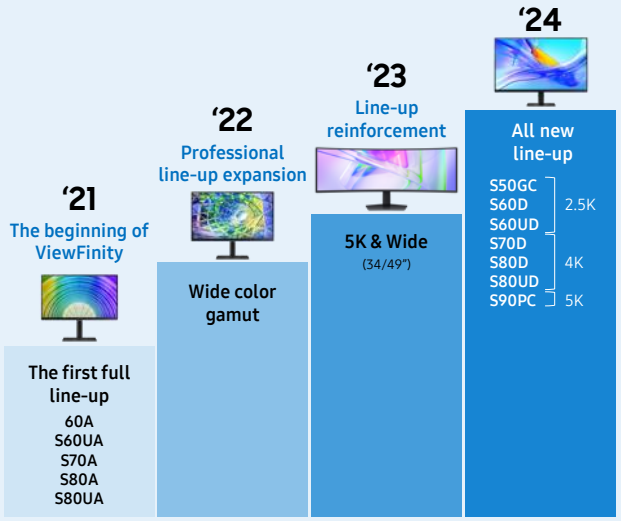
Through multiple ports (monitor becomes a docking station through single Thunderbolt™, USB–C, KVM and LAN) & TÜV Intelligent Eye Care in most models.

Individual monitor certifications vary. See individual monitor slides for more information or visit samsung.com

Samsung ViewFinity 2024 Focus

01

Refined experience



- New large screens (3x 34", 1x 49")
- Higher resolution (QHD, 4K & 5K)
- + Connectivity (Thunderbolt, KVM Switch)

02

Enhanced well-being

- New Intelligent Eye Care Models
- New Ergonomic Design
- Easy setup stand (5 sec. installation[1])

03

Continuous eco-steps

- Eco Saving Plus/Save Energy[2]
- TCO 9.0[3], EPEAT Silver[4] & PCF Reports
- Zero Chemical Coatings[5]

[1]Installation time is estimated based on internal testing. [2]Based on internal testing data of S80PB, S80TB and T45F monitors only. Testing compared energy usage of these models with Eco Saving Plus mode, also known as Save Energy on newer models, switched on high setting and switched off. Actual energy savings may vary based on usage conditions, brightness levels, and model selected. Eco Saving Plus is not available in Dynamic Contrast Mode, Game Mode, Eye Saver Mode, or when PIP/PBP Mode is on. [3]See www.tcocertified.com for more information. Essential monitors

Excellence... everyday

Perfect color down to the last detail. A range of monitors with IPS panels to preserve vividness and clarity across every inch of the screen. Work comfortably on the productivity-boosting wide display.

The virtually borderless screen shows you the full picture and looks almost gapless when used in a dual-monitor setup. See more at once, with less distractions in your way, and get through larger sections of your to-do.

IPS

IPS panel
Preserves color vividness and clarity of multimedia contents across every inch of the screen through 178° of wide viewing angle.

Flicker Free
Specially designed to produce a single continuous light source, protecting eyes from the constant strain of screen flickering on conventional monitors.

Eye Saver Mode
Reduces blue light emissions which might be harmful to retinas. It's beneficial in preventing eye strain, especially during extended use.

Individual monitor certifications vary. See individual monitor slides for more information or samsung.com.

[1]Based on internal testing data of S80PB, S80TB and T45F monitors only. Testing compared energy usage of these models with Eco Saving Plus mode switched on high setting and switched off. Actual energy savings may vary based on usage conditions, brightness levels, and model selected. Eco Saving Plus is not available in Dynamic Contrast Mode, Game Mode, Eye Saver Mode, or when PIP/PBP Mode is on. [2]See www.tcocertified.com for more information. [3]See www.epeat.net for more information. [4]All models are staple free. All recycled plastics used in our monitors are chemical spray-free.

Case studies

Success cases - European Region

Companies in the European region decide Samsung monitors as their standard for their offices

Deal	Country	Logo	Vertical sector
UNICREDIT	Italy	UniCredit	Banking
TIM	Italy	TIM	Telecom
AON	Italy	AON	Consultancy
ALLIANZ	Italy	Allianz	Assurance
BCG	Italy	BCG	Consultancy
KMD	Poland	KMD An NEC Company	IT programists

Global reference cases

Customer needs

Natixis's IT manager want to improve the old 24" monitor's pain points:

- Lots of power supply/ power consumption
- Different COLOR GAMUT per each monitor
- Lack of flexibility to arrange S/W applications on screens

Value proposition

France team already had very strong and long term relationship with NATIXIS and BCPE Group

France team invites customer to showroom regularly and push the inputs of using 49" monitor's advantage
