

POWERFUL COMPUTING IN A SPACE-SAVING DESIGN

Lenovo

Compact, economical, and powerful, the ThinkCentre M630e Tiny packs a punch with latest 8th Generation WHL up to Intel® Core™ i5 Processors, DDR4 memory, and high-speed SSD storage.

The M630e allows you to expand your device capabilities with a range of connectivity options while robust security features ensure data safety. About 96% smaller than a full-sized desktop, this Tiny is designed to boost productivity while helping you save time, effort, and desk space.

ThinkCentre M630e TINY

ThinkCentre M630e TINY

ITDM Benefits

Manageable

The Smart Power On feature enables remote device manageability with a simple keyboard shortcut while the Tiny is fixed over a projector with a VESA Mount.

Durable

The Dust Shield protects the components of the Tiny desktop from dust, making it more reliable and productive in the longer run.

Sustainable

This energy efficient M630e comes with green certifications like Energy® Star 7.0, GREENGUARD®, EPEAT™ Bronze, and RoHS/WEEE/REACH that results in lower utility bills.

ThinkCentre Tiny Ecosystem

A range of Tiny's accessories allows it to be securely mounted on a wall, under the desk, or behind a monitor—saving desk space and reducing clutter.

Packed with Performance: with up to 16GB DDR4 memory and an Intel® Optane™ ready* core, the M630e delivers high performance and responsiveness. Running out of storage will never be a worry with the extra capacity and reliability of HDD and SSD storage.

Compatible Design: with a 1L chassis, the Tiny carries a smaller footprint and can fit anywhere, horizontally or vertically. Create your own modular all-in-one PC in combination with the ThinkCentre Tiny-in-One (TIO) monitor—additionally, keep the costs low while upgrading your PC's display or computing power separately.

Robust Security: the Smart USB Protection feature ensures that no malware enters the system by restricting access to USB ports except for keyboard and mouse inputs. Additionally, a Kensington™ lock slot physically secures the desktop reducing the risk of theft.

Versatile Connectivity: share information quickly with your peers with the USB-C ports that enable faster data transfer. Experience high-speed connectivity to peripherals with multiple input/output ports and multitask with ease.

*Optional

Accessories

Dust Shield

(PN: 4XH0K92691)

The ThinkCentre 1L Tiny Dust Shield keeps your PC clean and protects your desktop from dust build up, which can affect performance and reliability.

VESA Mount II

(PN: 4XF0N03161)

The ThinkCentre Tiny VESA Mount II is a unique design for housing the Tiny PC that allows VESA-standard mount configuration. This mount can attach to anything that is VESA-compatible for utmost flexibility. This versatile device can be used separately or combined with other options for secure mounting.

Sandwich Kit II

(PN: 4XH0N04098)

The Tiny Sandwich Kit II is an attractive space-saving solution that is constructed of high-grade steel and mounts easily with just a few screws. It frees up desk space and protects the Tiny PC with built-in security. Its open architecture provides easy access to various ports and control buttons of the ThinkCentre Tiny PC.

ThinkCentre Tiny IV Vertical Stand

(PN: 4XF0N03160)

The Tiny IV Vertical Stand is designed to position the Tiny PC vertically, helping you organize your workspace better by freeing up valuable desk space.

RECOMMENDED SERVICES

Lenovo offers a comprehensive portfolio of services to support and protect your ThinkCentre investments, so you can focus on the business at hand rather than worrying about IT.

Premier Support

Provides direct access to skilled and experienced Lenovo technicians for comprehensive hardware and software support. Gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

Accidental Damage Protection (ADP)

Prevents the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops, or damage.

Warranty Extension (1-year base, up to 3 years total)

This fixed-term, fixed-cost service helps you accurately budget for PC expenses, protect your valuable investment, and lower your cost of ownership over time.

*Optional

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.1 Gen1; 10 Gbit/s for USB 3.1 Gen2 & 20 Gbit/s for USB 3.2.
