

NoteCase Aarhus 20 Tablets

USB-A, Sync

NoteCase 20 is a robust portable storage and charging solution for 20 tablets.

NoteCase 20 tablets is a robust case adapted to a school environment where IT equipment and other inventory is used extensively in several locations and sometimes treated roughly.

NoteCase is an excellent solution when there is a need to move tablets, iPads or similar devices between classrooms or other places in and around the school. The case design with handles, wheels and telescopic handle makes it much easier when devices must be taken up and down stairs.

NoteCase is not only a storage solution, but it also makes it possible to charge all devices simultaneously via NoteCharge USB chargers or the power strip. The case's cabling system prevents the cables from getting lost.

NoteCase Aarhus 20 tablets Solutions

- Designed for storing, charging and carrying up to 20 tablets, iPads or similar devices.
- Built-in synchronization function so that all devices can be synchronized simultaneously from a computer.
- The case is robust and easy to transport with wheels and a telescopic handle.
- Handles on the sides and front make it easy to carry and move the case.
- Handles on the sides and front make it easy to carry and move the case.
- The case has a cable management system that ensures that the cables do not get lost and are kept tidy.
- The hinges on the front make it possible to lock the case with padlocks, and ensure that the devices are stored securely.
- The ventilation holes on the door ensure that the devices do not overheat during charging.

DEVICES

Tablets, iPads and similar devices
