

HP Poly Mission 625 Stereo USB Wired Headset (C01C6AA)

Comfort meets performance

Built for long days and countless calls, the HP Poly Mission 625 headset blends exceptional comfort with high-quality audio and easy USB connectivity — helping teams stay focused, productive, and connected all day.

Custom fit for long days

Designed for all day comfort – the adjustable padded headband pad and plush memory foam earcups provide a personalized fit that supports focus and reduces fatigue — even through all-day meetings.

Always clear, always professional

When your workday gets loud, HP Poly Mission 625 headset helps your voice shine through. Noise-canceling mics and AI noise reduction[1] keep conversations professional and distraction free, so your calls are clear and focused.

Simple, reliable connections

Plug in and get to work. With USB Type-C® and USB Type-A compatibility, intuitive inline controls, and easy device management via HP Poly Studio App, setup is effortless and reliable for every user, every time.

Funktionsumfang

AI noise reduction[1]

AI noise reduction[1] detects and filters ambient sounds so only your voice comes through. Meetings stay quiet and focused without manual muting.

SoundGuard Digital

SoundGuard Digital[5] technology controls sudden audio spikes and continuous noise to keep levels safe and comfortable throughout the day without distorting speech quality.

Super wideband audio

Super wideband audio captures a broader frequency range to reproduce voice detail and tone more naturally. Conversations sound closer to in-person speech for clearer calls.

32 mm speaker drivers

Large 32 mm drivers deliver richer audio and sharper clarity, making voices easier to recognize and reducing listening fatigue during long sessions.

Rotatable microphone boom

A 285-degree rotating microphone lets users wear the boom on either side for comfort and control. Quick upward movement automatically mutes the mic for seamless silence when needed.

Technische Daten

Audio	Microsoft Teams Open Office certified; AI enhanced transmit noise reduction; Super wideband audio
Abmessungen (B x T x H)	170 x 180 x 40 mm
Abmessungen (B x T x H)	6.7 x 7 x 1.6 in
