

Flipchart MAULsolid, round base flip2use

- **Special feature:** Switch between portrait and landscape orientation by simply rotating the board 90°
- Can be used as a portrait-oriented flipchart and as a projection board in both portrait and landscape orientation
- Also suitable for ultra-short-throw projectors
- **Durable:** Sturdy, abrasion-resistant plastic hinge
- **Designed by MAUL:** Developed and engineered in Germany
- **Mobile:** Easy to move without exerting force thanks to the round shape of the base and 5 lockable casters
- **Versatile:** Board is infinitely height-adjustable (from the front) in portrait orientation from 154 to 196 cm, landscape format from 136 to 176 cm (lower/upper position). Does not sag unintentionally
- **Sturdy construction:** Base Ø 63 cm and column made of heavy-duty steel tubing
- Foldable, large aluminium tray for pens and accessories
- Easy to rotate: slightly loosen the star knobs, rotate the flipchart, then tighten the star knobs again
- Board 66 x 97 cm, made of plastic-coated steel sheet, magnetic surface
- Flexible: paper pad holder, horizontally adjustable for all standard pad formats (pad item no. 638 78 02)
- Cover flap with spring mechanism for flat positioning of the pad in portrait format and for holding it open during pad change, also serves as a paper tear-off edge
