

Mini-DisplayPort to HDTV-Adapter

CONNECT YOUR LAPTOP OR TABLET TO YOUR HDTV

The Mini DisplayPort to HDTV Adapter lets you stream high-quality A/V content from your laptop or tablet to your HDTV. Use it in conjunction with an HDMI cable (sold separately) to watch movies, share photos, or expand your workstation with a mirrored desktop.

Note: This adapter plugs into the Mini DisplayPort/Thunderbolt™ port found on MacBooks and many Ultrabooks and tablets. Please check your device to confirm compatibility.

DURABLE DESIGN RESISTS WEAR AND TEAR

The adapter offers molded-strain relief for flexibility at the connection points, reducing wear and tear from frequent use. A white label helps you identify which end is up for easy, quick insertion.

PLUG AND PLAY WHEREVER YOU GO

Measuring 5 inches, the adapter is a pocket-sized, portable accessory for HDTV setups both at home and in the office. When used with an HDMI cable (sold separately), the adapter offers plug-and-play capability that is ideal for presentations on the go.

Features:

- Adapter transmits audio and video from mini DisplayPort to HDMI
- Ideal for connecting laptops or tablets to an HDTV
- Use for movies, presentations, workstations, and more
- Compact, portable 5-inch design
- Requires separate HDMI cable
