ARTICONA is Bechtle's own brand of IT accessories for the modern workplace and stands for quality and reliability in everyday business.

KVM Cable VGA USB 1.8m

Article number: 274750

These high-quality 3-in-1 flex cables include keyboard, video and mouse cables, thus preventing the usual cable clutter and making it particularly easy to keep installations organised, especially with CPU switches. The cables and plugs are made from high quality material to ensure top-notch signal transmission.

Please Note: this cable features a DB15HD/m plug for connection to the KVM switch.

- KVM switch combo cable with 1x DB15HD/m plug to KVM switch side
- Thin cable
- The same transfer quality as conventional cables
