

Cable Adapter Tethers - Pack of 4

No.: 40774

Secure cable pigtail adapters or extension cables to a host cable

Description

- Secures cable pigtail adapters or extension cables to a cable, preventing accidental disconnection or loss
- Easily adjustable for a variety of cable connectors
- Black stainless steel tether wires
- 4 x tether wires, 8 x crimp-style metal sleeves
- 2 year warranty

The Lindy pack of 4 cable adapter tethers are a simple solution for securing cable pigtail adapters and cables together, countering common issues of loss, theft or accidental disconnection with minimum hassle for users and installers.

Either end of the tether can be secured around the adapter or cable connector, with the opposite end around the connected head shell, and tightened easily with crimp-style metal sleeves, providing a neat fix for possible disconnections and other similar issues, perfect for use in universities, conference rooms and other public spaces. With a stainless steel construction, this tether cannot also be easily snapped or cut, ensuring adapters and cables can't be stolen or lost.

Please note this product requires reasonable force to ensure a secure installation using high quality standard or crimp style pliers
