

Sophos Endpoint 100

Award-winning protection, unmatched value

Sophos Endpoint 100 provides award-winning protection that's light on resources — and light on your budget. Easy to install and with no configuration needed, Sophos Endpoint 100 makes it easy to protect your business from advanced ransomware and other sophisticated cyberthreats, while making stretched cybersecurity funds go further. Available exclusively to organizations with up to one hundred employees, Sophos Endpoint 100 provides fully featured endpoint protection at an exceptional price.

Use cases

1 | SIMPLE TO DEPLOY, EVEN EASIER TO USE

Desired outcome: Get the best possible protection from advanced cyberthreats, without slowing down your team.

Solution: Install and manage Sophos Endpoint 100 with ease in Sophos Central — a cloud-based cybersecurity management platform that unifies all Sophos next-gen security solutions. Simple one-time installation and strong default settings ensure your business has the best protection enabled immediately with no additional training or configuration needed. Just install-and-go! Sophos Endpoint 100 is also performance-optimized and light on system resources, so it doesn't get in your way.

2 | UNMATCHED THREAT PROTECTION

Desired outcome: Benefit from enterprise-grade cybersecurity that's cost effective for smaller businesses.

Solution: Sophos Endpoint 100 takes a comprehensive, prevention-first approach to security, blocking more threats upfront so resource-stretched IT teams have fewer alerts to investigate and resolve. Multiple deep learning AI models secure against known and never-before-seen attacks. Web, application and peripheral controls reduce your threat surface and block common attack vectors. Robust anti-ransomware, anti-exploitation, adaptive defenses, and other advanced technologies stop threats fast before they impact your business.

3 | TRUSTED, TOP-RATED ENDPOINT SECURITY

Desired outcome: Ensure your business is protected by an industry leading solution.

Solution: Sophos is consistently rated as a Leader by industry analysts, independent security tests, and most importantly, by customers. Over 300,000 organizations worldwide trust Sophos Endpoint to protect their businesses. Based on real-world customer feedback, Sophos is rated a "Customers' Choice" in the 2025 Gartner® Voice of the Customer report for Endpoint Protection Platforms — for the fourth consecutive time. Sophos also won multiple honors at the SE Labs Awards 2025 including the overall Winner for Small Business Endpoint, Small Business Managed Service Provider, and Small Business Security Innovator. And with AAA ratings in endpoint protection tests, you're in safe hands.

4 | MANAGED CYBERSECURITY SERVICE OPTION

Desired outcome: Sleep easy with award-winning protection, delivered exactly how you want it.

Solution: With the Sophos Managed Detection and Response (MDR) cybersecurity service, peace-of-mind protection is delivered by a team of 24/7 cybersecurity experts who monitor, detect, and respond to cyberattacks targeting your computers, servers, email accounts, and more. Sophos Endpoint 100 is fully integrated with the Sophos MDR service. Our security experts identify and neutralize attacks on your behalf, enabling you to focus on what matters most — your business.

Sophos Endpoint 100 is available exclusively to organizations with up to one hundred employees. Terms and conditions apply.

A "Customers' Choice" in the 2025 Gartner® Voice of the Customer report for Endpoint Protection Platforms.
