

## DisplayPort 1.2 Extender/Repeater 20m+20m DP++

Part No.: 38413

### Description

- Allows DisplayPort signals to be transmitted at distances of up to 40m
- Supports resolutions of up to 3840x2160
- Max cable lengths: 4k @ 60Hz up to 10m, 4k @ 30Hz up to 35m, 1600p up to 40m
- Supports DP++/ DisplayPort Dual Mode
- 2 year Warranty

The LINDY DisplayPort 1.2 Repeater / Extender is best used in conjunction with our DisplayPort Cables. This extender module allows DisplayPort video signals to be sent over distances of up to 40m.

It supports connections of 4k @ 60Hz up to 10m (5m in and 5m out), 4k @ 30Hz up to 35m (15m in and 20m out) and 1600p up to 40m (20m in and 20m out) all using our Gold Displayport cable range.

### Technical details

- HDCP 2.2 and DPCP signal support
- Dimensions: 53 x 55 x 20mm (WxDxH)
- No power supply required for most installations as the module takes power from the DP interface
- Includes a 5V DC PSU for use when the source device cannot supply a sufficiently high quality, stable DP signal (for example, some older graphics cards)
