CONFERENCE

Immersive wireless conferencing with the Conferencing Button

Set up your meeting with your preferred UC solution. Plug in the Conferencing Button and in less than 7 seconds you have immediate access to speakerphone, camera and speakers in the room, wireless presenting, interactive sharing and feature-rich collaboration.

Add a new dimension to collaboration and presentations:

- Instantly makes meeting room camera and speakers available to your laptop
- Gives access to wireless conferencing
- From any laptop or desktop, both Windows and Mac OS
- Get your content on screen within seconds
- Ideal for guests, no installation needed
- Quick Button: get access to an advanced set of collaboration features
- Compatible with every ClickShare Conference Base Unit
- Receive auto updates & the latest functionalities

You are automatically connected to meeting room cameras, speakerphone, soundbars and any other AV peripherals*. You get richer audio & video, have wider views of the room and can add content sharing to your call.

Tripe-agnostic solution

The power of ClickShare Conference lies in the freedom to choose. You decide how you collaborate securely.

From any **desktop and laptop**

With the **UC or conferencing tool** of your choice (e.g Skype, Zoom, MS Teams, webex, BlueJeans....)

Connecting to any **AV peripheral** in the meeting room*

* A list of verified peripherals is available online

CONFERENCE

Simplicity at the heart

Both employees and guests have easy and free access to our solution.

- Universal solution, no need for converters, plugs
- No training needed
- Advanced features designed for collaborative environments
- Intuitive user interface

Quick Button: Dive into advanced collaboration

We've added a useful set of **collaborative and interactive features*** to the Collaboration App, that you can enjoy also while using the Button, accessible via the additional Quick Button. Only functionalities that bring value to collaborative environments or that enhance meeting efficiency make the cut.

- Bring the big screen back to your device with 'local view of the room display'
- Pause content on the meeting room screen
- Use window selection to show only the application or document you prefer
- Extended desktop: take notes on your device while sharing content with second screen (requires installation of the extension pack)
- Moderate: preview, control the documents, you decide what goes on screen
- Take snapshots
- Control AV equipment: speaker volume, camera zoom...

Join the conversation effortlessly, decide how you share

Get the richest way of collaboration when **combining the Conferencing Button with the Collaboration App.**

Enjoy wireless conferencing with the Button and access an advanced set of collaboration features in the Collaboration App: pause, window selection, extended desktop, ideation and moderation. These are available to you whether you use the Button or not to share content.

*Not all features are available on all ClickShare Conference models. Some will be added in future updates
