

## Cruzer Blade™

### AT A GLANCE

- Compact, contoured light design
- The easiest way to share, store and protect files
- Password-protects and encrypts private files<sup>1</sup>
- Available in 4GB, 8GB, 16GB, 32GB, 64GB and 128GB\* capacities

### FULL PRODUCT DESCRIPTION

The 128GB\* Cruiser Blade™ USB Flash Drive may look small, but it has all the space you need to store and share tunes, pictures and home videos – or your presentations and spreadsheets – whenever you want. Despite storing 128GB in a compact and contoured design, the Cruiser Blade USB Flash Drive is barely half the size of most USB Flash Drives. It makes sure that your private files stay protected, with the password protection and encryption<sup>1</sup> offered by SanDisk SecureAccess™ software.

## FEATURES AND BENEFITS

- Compact, light design makes it easy to carry round
- The easiest way to share, store and protect your music, pictures, videos and work
- So simple to use, you can be up and running in seconds
- SanDisk SecureAccess software protects private files with a personal password and automatic 128-bit AES encryption<sup>1</sup>
- It couldn't be easier to use: simply drag and drop files into a private folder or "vault" and they're safe
- Available in 4GB, 8GB, 16GB, 32GB, 64GB and 128GB\* capacities

SanDisk® SecureAccess™

## CHOOSING THE RIGHT USB

**Selecting the right capacity of USB doesn't have a simple answer.**

It all depends on what you want to store, and how much of it. For example, a single Full HD video can take up a number of gigabytes. The chart shows a typical mix of photos, videos, music and office files to give you an idea of what each capacity can store.

Capacity	Photo 10MP <sup>2</sup>	Video 1080 AVCHD <sup>2</sup>	Music MP3 songs <sup>2</sup>	Office files <sup>2</sup>
<b>128GB</b> <sup>1</sup>	7200	+ 320mins	+ 8000	+ 32GB
<b>64GB</b>	3600	+ 160mins	+ 4000	+ 16GB
<b>32GB</b>	1800	+ 80mins	+ 2000	+ 8GB
<b>16GB</b>	900	+ 40mins	+ 1000	+ 4GB
<b>8GB</b>	450	+ 20mins	+ 500	+ 2GB
<b>4GB</b>	225	+ 10mins	+ 250	+ 1GB

<sup>1</sup>1 gigabyte (GB) = 1 billion bytes. Some capacity not available for data storage. <sup>2</sup>Approximations: results will vary based on file size, resolution, compression, bit rate, content, host device, pre-loaded files & other factors.

### How does the Cruiser Blade USB Flash Drive compare?

SanDisk® offers a wide range of performance levels in its USB Flash Drives, each designed to meet a different range of customer needs. If the Cruiser Blade USB Flash Drive doesn't offer the right solution for you, here are some alternatives for you to explore.

The 128GB Cruiser Blade USB Flash Drive is one of the smallest in our range at just over 4cm long – and at 2.50g, it is also incredibly light – making it superbly easy to take around with you. Fit the USB Flash Drive comfortably in the palm of your hand, slide it into a pocket or hang it from your keychain.

### Stay protected with SanDisk

SanDisk SecureAccess software makes it easy to protect personal or critical files such as business presentations or legal documents. Simply drag and drop files into the vault and they'll be protected by a personal password and automatic 128-bit AES encryption<sup>1</sup>. This means that your content will stay private and secure when you take the drive out and about, or if you store it away for safekeeping.

### Compatibility

The Cruiser Blade Flash Drive is optimised for laptops and devices with USB 2.0 ports.

### Reassurance with performance

SanDisk develops and engineers its USB Flash Drives to maximise reliability, so you can count on your 128GB Cruiser Blade USB Flash Drive to store your important files.

You can enjoy yourself or work away with total peace of mind. 128GB Cruiser Blade USB Flash Drives are backed by a five-year limited warranty.
