

G DATA ENDPOINT PROTECTION BUSINESS

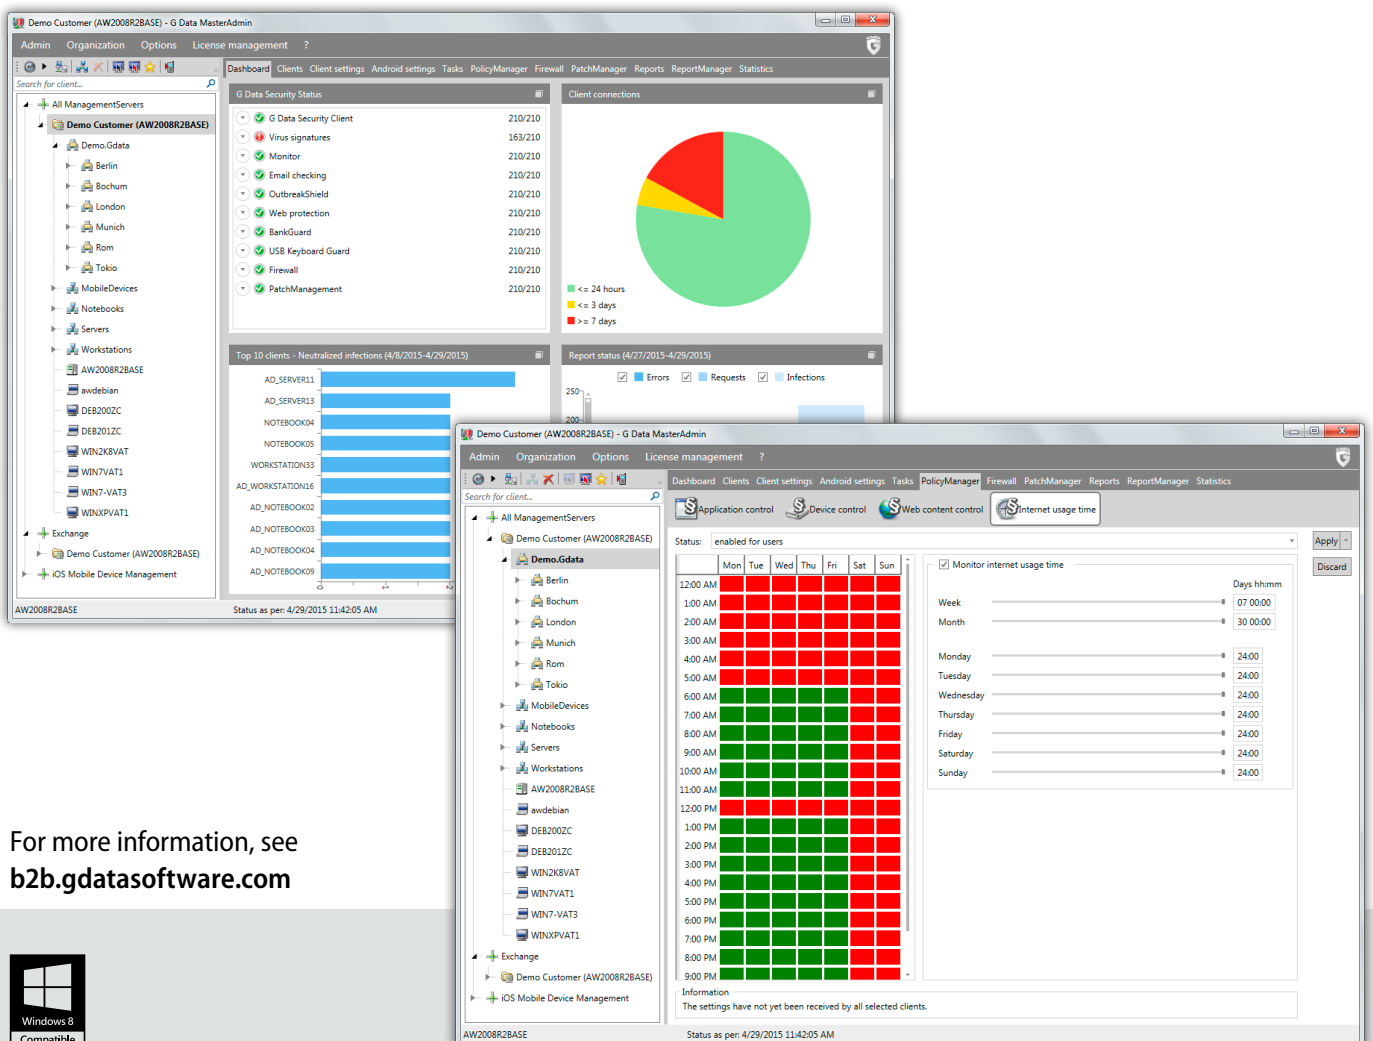

THE ALL-ROUND, NO-FUSS PACKAGE: COMPLETE PROTECTION FOR NETWORKS OF ANY SIZE

G DATA ENDPOINT PROTECTION protects you in various ways: maximum security through active hybrid protection using CloseGap technology, and the best reaction times to current threats.

Besides the Antivirus, Firewall and AntiSpam modules, the comprehensive Business solution has a PolicyManager module that controls internet usage and the use of programs and devices such as USB sticks, all in just a few mouse clicks.

G DATA has been carrying out research for 30 years for your security. The result is exceptional, comprehensive protection for your PC, which is easy to install, simple to operate and offers excellent performance levels.

SIMPLY
SECURE

COMPLETE CLIENT PROTECTION

CloseGap hybrid technology	Maximum protection through proactive and signature-based detection
G DATA BankGuard	Secure online payments – no browser add-on or additional software required
Behavior Blocker	Protects against even unknown viruses
NEW! Protection against harmful USB devices	The integrated USB KEYBOARD GUARD reliably protects clients against harmful USB devices masquerading as keyboards
Integrated protection against spam and virus-infected email	Add-on for Microsoft Outlook and for POP3 and IMAP accounts
Powerful firewall	Monitors all incoming and outgoing connections and protects against DoS attacks, portscans and much more
OPTIMIZED! Antivirus for Linux clients	Protects Linux computers in the company network against Internet risks. Now with support for even more distributions

CENTRAL ADMINISTRATION

Simple administration and fast overview	Central management of installations, virus scans and user permissions
Simplified installation overview	With status reports and installation history
Clear dashboard	User-friendly overview of all relevant information, including context-based help
Remote administration	From anywhere via web interface – even from mobile browsers
Device control	Control who is permitted to use USB sticks, storage cards or burners
Application control	Specify which programs are allowed to be installed or run
Web browsing filter and control of Internet use	Websites can be blocked if required; web browsing time can be restricted
Active Directory integration	Transfer existing group structures and automate client installation
OPTIMIZED! Mobile Device Management	Central administration of mobile Android and iOS devices, with antitheft protection, app checking, corporate phone book, call filter and much more (features can differ depending on the system)
Software and hardware directory	Detailed display of the entire inventory
Support free of charge 24/7/365	Development and in-house support work closely together in our Bochum head office

OPTIONAL MODULES

Premium service and support	Guaranteed response times and highly specialized support contacts – offer available on request
OPTIMIZED! MailSecurity	Gateway solution with antivirus and antispam filter (SMTP/POP3) compatible with any mail server, including Exchange, Notes, etc. Includes plug-in for MS Exchange 2007 to 2013
Central client backups	Central client backups for all company PCs
Patch Management	Centrally controlled software updates for Microsoft and third-party software

ADD-ON PRODUCTS

ANTIVIRUS FOR MAC	For seamless network protection: extensive protection against viruses, Trojans and other malware, specifically for MAC OS clients
-------------------	---
