**50m USB 1.1 Cat.5 Extender**
Part No.: 42805

## Description

- Extends a single USB port up to 50m using low cost Cat.5/5e/6 network cable (not included)
- Supports data transfer rates of up to 12Mbps
- Plug and Play Installation, OS independant
- Powered by the USB Bus
- 2 year warranty

The Lindy Cat.5 USB Extender can be used to extend the distance between a USB device and a host computer by up to 50m. It consists of a local unit, which can be connected to the computer or laptop and a remote unit which connects to USB devices including webcams and storage devices, perfect for long distance access to files or in video conferencing scenarios.

Standard, low cost Cat.5e/6 cable (not included) is used to connect the two units together. For best performance and compatibility, we recommend the use of solid core patched cables.

A power supply can be connected optionally for use with high current USB devices.
