G DATA CLIENT SECURITY BUSINESS

READY FOR ANY THREAT – WITH VIRUS PROTECTION AND CLIENT FIREWALL

G DATA CLIENT SECURITY offers the best possible end-to-end protection for company data of any type against threats from viruses, Trojans, spam and hackers. It also provides a secure barrier against virus epidemics, sabotage and theft.

The new AntiSpam function in the Exchange plug-in, support for additional Linux distributions and protection against malicious USB devices by the integrated USB KEYBOARD GUARD now offer even more security for your company.

G DATA has been carrying out research for your security for 30 years. The result is exceptional, comprehensive protection for your PC, which is easy to install, simple to operate and offers excellent performance levels.
