Privacy Filter MacBook Pro 16

Article number: 4590139

Protect important data and documents from unauthorised, prying eyes.

This privacy screen helps to protect sensitive data and personal information, and in this way enables relaxed work while on business trips as well as in public places. Micro-slats darken the picture smoothly, without stripes and make it impossible for others to see texts or pictures on the display from the side. In addition, the film protects the display from dirt, scratches or fingerprints.
