

bluechip Wireless Display Dongle

- 1 USB-C with DP Alt Mode
- 2 Pair Button
- 3 Reset Key
- 4 Indicator LED (White)

- 5 Reset Button
- 6 HDMI to Monitor
- 7 USB-A 5V Power Supply

The TX and the RX dongle are wireless P2P dongles that effortlessly mirror and extend displays. These plug-and-play devices require no drivers, offering user-friendly convenience. The TX dongle, with USB-C support and DP Alt mode, ensures seamless cross-platform connectivity with Windows, macOS, iOS, and Android OS on PCs, tablets, or mobile phones. Meanwhile, the RX dongle includes an HDMI connection for TV and monitor compatibility. These devices are ideal and dependable connectivity partners, enhancing your user experience across a range of applications.
