## HDMI - VGA Adapter

Article number: 4524396

The HDMI to VGA converter is specially designed for mobile devices such as notebooks or ultrabooks with an HDMI connection. It converts the digital signal to an analogue VGA signal, which is often required for projectors or monitors. The converter is equipped with the AG6202 chipset, which offers high image quality, compatibility and an excellent price-performance ratio.

- HDMI to VGA adapter for notebooks and other devices with HDMI output
- Chipset: AG6202
- Maximum resolution up to 1080p - 1920 x 1080 at 60 Hz
- Cable length: 15 cm
- Ideal for using new devices with an existing infrastructure
- Power supply via HDMI

### Specifications
