Twin Cable Lock 4.5 mm

Article number: 345032

Implement this ARTICONA cable lock to protect your company technology. The security lock is suitable for two devices with a Kensington locking slot. The robust 4.5 mm steel cable can be angled by up to 90°, which enables an even better placement of the safety system. The lock fits into all common notebooks, LCD projectors, TFT screens, CPUs, scanners, etc. if a Kensington security slot is available.

- Security system for two devices incl. two keys
- Head rotates 360°
- 1.7 m protected steel cable
- For notebooks, projectors, monitors, etc.
- Lock head diameter: 18.00 mm
- Distance between locks can be adjusted:
Minimum: 10 cm
Maximum: 170 cm
