EcoTank ET-2756

Meet Epson's next generation of EcoTank. This white 3-in-1 provides a LCD screen and double-sided printing.

Designed for your convenience, this white cartridge-free EcoTank comes with the equivalent of 88 cartridges worth of ink[1]. This reliable and easy-to-use model features an enhanced ink filling system and new ink bottles engineered for mess-free refills. It also includes a 3.7cm LCD screen, SD card slot and double-sided printing. It comes with an extra black bottle of ink.

Cartridge-free printing
Go longer between refills with EcoTank. It uses ultra-high-capacity ink tanks to completely remove the need for cartridges.

Ultra-low cost
This economical printer can save 90% on ink costs on average[1]. Giving you an extremely low cost-per-page, it produces 14,000 pages in black and 5,200 in colour with the included ink[2].

Discover the next generation of EcoTank
With the ink tank now housed at the front, EcoTank is more compact and easier to use than ever before. Protecting you against leaks and spills, it features an enhanced ink filling system engineered for mess-free refills. The new bottles also incorporate a mechanism to ensure that only the correct colours can be inserted. Thanks to the front ink level display, it's now easy to see when it's finally due for a refill. And with pigment black and dye colour inks, it produces prints with crisp, clear text and vivid colours.

Print from almost anywhere
With Wi-Fi and Wi-Fi Direct, you can send documents to print from smart devices using the Epson iPrint[3] app. Additionally, its 3.7cm LCD screen and SD card slot make it easy to print without a PC.

Quality results
With a Micro Piezo printhead, EcoTank provides a reliable printing solution which is backed by a one year warranty. It can also be relied upon to produce double-sided prints fast.

* Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 with replacement sets of ink. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.

1. Average number of cartridges/savings for printing the number of pages using the bundled ink bottles with the EcoTank range, excluding hardware price. Comparison made on the average of the A4 EcoTank range versus the average of the top 10 best-selling models in Western Europe, in the period January 2017– December 2017, as tracked by GfK. Printing costs calculated on the proportion of Standard and XL cartridges as tracked by GfK for the same reference period for the Western European market, using average retail prices. Ink cartridge yields as communicated by the manufacturer's websites.
