00185815 Key Finder, Item Finder for Apple "Find My" App, Bluetooth, white

Highlighttext:

- Searching is yesterday, finding is now: the Key Finder helps keep an eye on all devices and objects and find them again at any time in combination with the "Find My" app
- It's all in the crowd: Add the Key Finder in the "Find my" app on the "Objects" tab and find things with the help of millions of Apple devices from the "Find my" network
- Track it down: Track down the missing object with the help of the loud audio signal (up to 120 dB)
- Safety first: Advanced encryption means that unauthorised spying on location data and movement is prevented
- Losing things is over: the key finder can be attached to backpacks, keys and all important things and even to dogs who like to go off on their own sometimes
- The Bluetooth tag on the missing item sends a notification to the app if you have accidentally left it behind, for example (from a range of around 300 m) or someone from the "Find My" network finds it
- With a hole and additional loop, secure the Key Finder directly to a key ring or to eyelets on a backpack or bag
- Water-resistant to IPX5
- The button cell can be replaced and lasts for around a year

System Requirements:

Operating system: iPhone or iPod Touch with iOS 14.3 or higher, iPad with iPadOS 14.3 or higher, Mac with macOS Sur 11.1 or higher. We recommend you to update the system with the latest version.

Note for Consumers:
