The CROMO® Slim High Speed HDMI Cable with Ethernet is an affordable, high quality cable featuring gold plated contacts for better conductivity and resistance to corrosion and tarnishing.

This super thin and flexible HDMI cable has been specially designed for connection to devices in confined spaces or with restricted access to the HDMI ports. The slim form factor also reduces the weight of the cable by around 80% compared to the standard CROMO® cables making it perfect for connecting to awkwardly placed devices in a rack or to displays mounted close to a wall.

HDMI ATC (Authorised Test Centre) certified for High Speed Category 2 compliance. Ethernet support allows compatible devices to connect to the internet
