

Wireless Charger

00188300 "FC10 Motion" Wireless Car Charger, black

Highlightstext:

- Simply place on the charger for wireless charging of all compatible mobile phones
- Wireless charging of smartphones with Qi technology
- Automatic, electromechanical holding jaws for a secure grip of the smartphone
- The buttons allow the holder to be opened and closed even after the power supply has been switched off
- When the charger is connected to the power supply, it checks whether a device has been inserted or not. If not, the jaws open. If there is a device present, however, they remain closed
- Device can be conveniently inserted in the holder with one hand and triggers an automatic sealing of the holding bracket
- Charger for easy charging in a car/lorry
- LED function indicator gives information about the device status
- Compact design for space-saving attachment
- Simple and stable attachment of the charger to the ventilation grille with a clamp device with silicon pads or to the windscreen with a telescopic suction cup holder
- Soft silicone pads on the charger protect the smartphone from scratches and damage
- Smart charging technology: wireless inductive technology (can be used with all compatible smartphones)
- No cable clutter
- Charging begins automatically after the smartphone is placed on the charger
- To end the charging process, simply remove the smartphone from the charger. The holding bracket can be opened using the buttons on the side

System Requirements:

Smartphone compatible with wireless charging technology.

Note for Consumers:

Please check the product information or operating manual of your smartphone or contact the manufacturer to see whether your smartphone supports wireless charging technology.

Technical characteristics:
