- Expands a PC's range of ports by adding a single USB 3.1 Gen 2 Type C port.
- Charge & sync USB Type C devices without the need for additional dongles.
- Transfer data at exceptional speeds of up to 10Gb/s.
- Compatible with USB 3.1 Gen 2 headers on a wide range of motherboards.
- 10 year warranty

The Lindy Single Port USB 3.1 Gen 2 Type C Back Plate is a cost effective, simple solution which allows the connection of Type C smart phones, digital cameras & external storage devices to a PC, without the use of additional dongles or adapters.

The USB 3.1 Gen 2 specification is capable of incredible data transfer speeds of up to 10Gbps, which can be applied to many applications to increase efficiency as time spent waiting for files to transfer is vastly reduced. Integration of USB 3.1 Gen 2 Type C ports on camera equipment is a prime example of how this increased bandwidth can support photographers by allowing them to quickly view, analyse and adjust images on the fly.
