## High Clarity Privacy Screen Filters

Brilliant clarity. Trusted privacy.

Product Sheet

**HIGH CLARITY TECHNOLOGY**

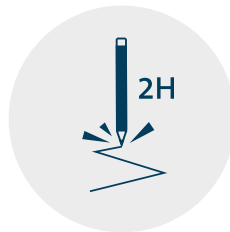

**±30° VIEWING ANGLE**

**BLUE LIGHT REDUCTION**

**ANTI-REFLECTIVE COATING**

**SCRATCH RESISTANT**

**FINAL ASSEMBLY IN GERMANY**

## HIGH CLARITY PRIVACY SCREEN FILTERS

Many professionals struggle to maintain privacy while working with sensitive information in public or shared spaces. Standard privacy screens can sacrifice clarity, hindering visibility.

Kensington High Clarity Privacy Screen Filters address these challenges with advanced nanolouvre technology for vibrant visuals, unleashing up to 40% more light transmittance compared to standard filters.\*

- **Cutting-edge nanolouvre technology enhances light transmittance by up to 40% compared to standard privacy screens\***
- **Narrows field of view to  $\pm 30^\circ$**
- **Eases eye strain and reduces the chances of natural sleep pattern interruptions by filtering out up to 28% of the laptop's blue light rays.**
- **Two installation options: mounting tabs allow repeated removal and re-attachment, or adhesive tape for a cleaner look**
- **Anti-reflective coating reduces glare from outside light sources for improved viewing clarity**
- **Scratch resistant 2H hardness rating**
- **Touchscreen compatible**
- **Final assembly in Germany**

\* Performance comparisons are made against Kensington 2-Way Privacy Screen Filters.

Privacy screens filters designed for high light transmittance may produce visual artifacts such as Moire pattern effects when used on OLED displays. High Clarity Privacy Screens are compatible with LCD and LED displays only. Not recommended for use with OLED displays.
