1. 5G service available with 5G plan. 5G network coverage required; available only in select areas; device not compatible with all 5G networks. Contact your service provider for details. **2.** Ready For wireless connection is supported with TVs that support Android smartphone screen mirroring (Miracast) only. **3.** 5G speeds: Based on 5G sub-6GHz network connectivity, providing 90-130 Mbps download speeds to the average user. 5G service plan and 5G network coverage required; available only in select areas; device not compatible with all 5G networks. Contact your service provider for details. Wi-Fi 6: Requires separately purchased Wi-Fi 6 compatible router and plan that may vary by location. **4.** All battery life claims are approximate and based on the median user tested across a mixed use profile

(which includes both usage and standby time) under optimal network conditions. Actual battery performance will vary and depends on many factors including signal strength, network and device settings, temperature, battery condition, and usage patterns. **5.** Battery must be substantially depleted; charging rate slows as charging progresses. All battery life claims are approximate and based on the median user tested across a mixed use profile (which includes both usage and standby time) under optimal network conditions. Actual battery performance will vary and depends on many factors including signal strength, network and device settings, temperature, battery condition, and usage patterns. **6.** Available user storage is less due to many factors, including operating system, software and functions utilizing part of this capacity; may change with software updates. **7.** Water-repellent design creates a barrier to help protect against moderate exposure to water, such as accidental spills, splashes or light rain. Not designed to be submersed in water, or exposed to pressurized water, or other liquids; may diminish over time. Not waterproof.
