

ROCKSTAR™ 10-PORT USB CHARGING STATION

For Device:

Mobile devices

POWER FOR ALL

Compact and convenient, the 10-Port USB Charging Station provides optimal charging for any combination of smartphones, tablets, or other mobile devices. Intelligent power delivery charges each device quickly and safely, up to 2.4 Amps per port with a total external power supply output of 120 watts. The charging station also provides essential multi-port surge protection to safeguard connected devices from damage, up to £3,000.

PRODUCT STORY:

- **Research:** As more and more offices and educational institutions integrate mobile devices into their daily practice, there is a growing requirement for multi-charge solutions that offer simple, effective, and fast charging.
- **Consumer requirement:** Self-sustainable, cost-effective solutions that can efficiently charge multiple devices from a variety of brands, simultaneously, safely and from a single outlet.
- **Competition:** Most charging hubs do not offer enough output to power more than five ports at the same time, making it impossible to charge 6–10 devices simultaneously.

At a Glance:

- 10x 2.4A max USB-A ports
- 120W overall external power supply output
- Intelligent charging delivers correct wattage
- Surge protection
- Regional plug sets available for US, UK, Europe, and Asia
- £3,000 Connected Equipment Warranty

ROCKSTAR™ 10-PORT USB CHARGING STATION

For Device:

Mobile devices

BENEFITS:

RELIABLE MULTI-PORT CHARGING

An overall external power supply output of 120 watts ensures that up to 2.4 Amps is delivered to each port. This provides optimal charging for each connected device for consistent charge time, regardless of the number and size of devices connected.

COMPACT CONVENIENCE

With 10 universal USB-A ports available, the hub allows simultaneous, multiple device charging, all from a single outlet. Since the power supply unit is external, the small, compact hub fits easily onto a desktop, or can be wall-mounted to save space.

INTELLIGENT CHARGING

Able to automatically detect each connected device, the hub delivers the precise amount of power up to 2.4 Amps for optimal charging. Included surge protection simultaneously safeguards each device from too much power, and is backed by a £3,000 Connected Equipment Warranty.

£3,000 CONNECTED EQUIPMENT WARRANTY

This product warranty means we will repair or replace any equipment damaged by a surge, spike, or lightning strike while properly connected to our surge protector, up to £3,000*.

Package Includes:

- 10-Port USB-A Charging Station, Power Supply

Available Colours:

- White
