EQ PRIVACY SCREEN FILTERS

Finding privacy screen filters that support sustainability goals while offering strong data protection can be a challenge. Kensington EQ Privacy Screen Filters are an innovative solution, utilising 54% post-consumer recycled (PCR) plastic.

With a limited viewing angle of ±30°, they help safeguard sensitive information in busy offices and public spaces. With easy installation options, touchscreen compatibility and military-grade protection, EQ Privacy Screen Filters are a more sustainable privacy solution for a wide range of laptops and monitors.

- **Made from up to 54% post-consumer recycled (PCR) plastic and shipped in FSC® certified packaging**

- **Narrows field of view to ±30°**

- **Eases eye strain and may help reduce risk of natural sleep pattern interruptions**

- **Two installation options: mounting tabs allow repeated removal and re-attachment, or adhesive tape for a cleaner look**

- **Anti-reflective coating reduces glare from outside light sources for improved viewing clarity**

- **Matte side provides a clearer view without glare or fingerprints, while the glossy side enhances visibility for a sharper display**

- **Scratch resistant 2H hardness rating**

- **Final assembly in Germany**
