

# Multiplexer Dongle, Forwards Targus ACP71 & ACP77 power + data to single USB-C output - Black

ACA41EUZ

## Description

Simplify the transition to USB-C with the Targus Multiplexer Dongle, designed so you can use new USB-C hardware with your existing Targus Powered Docking Stations (ACP71EUZ & ACP77EUZ).

This dongle combines the Targus ACP71 & 77 power + data output into a single USB-C output so that you can take advantage of the latest USB-C technology and minimise upgrade costs by extending the life of your docks.

Charge your device, connect to extra screens and transfer data through a single USB-C port on your hardware.

## Features

- Convert existing docks to Type C compatibility: Use with USB-C devices and Targus Powered Docking Stations ACP71 & ACP77
- Connect and power USB-C devices at the office without replacing your Docking Station estate
- Reduce upgrade costs & retain flexibility
- 2-year warranty
