An Eaton secure-by-design solution

Complies with rigorous cyber-security, process, requirements and testing standards

CONNECTED WARRANTY+1/ CONNECTED WARRANTY+3

Connected Warranty+1/ Connected Warranty+3 includes:

- **Extended warranty for 1 or 3 years**
- **Cyber Secured Remote Monitoring** for the covered time
- Comprehensive **monthly Health report**
- **Professional helpline** during the working hours
- **Standard exchange** of the equipment speeded up thanks to the **remote diagnostic**
- Electronic parts and batteries coverage (*batteries are covered only for failures, not reduced autonomy*)

How to activate the service?

1. The customer buys the right reference for the equipment from a reseller
2. She/he receives the PDF certificate by email; with the contract number and a link to follow the installation instructions
3. The user registers the UPS and the associated service with the contract number on: <https://www.pqproductregistration.eaton.com>
4. Eaton activates the remote monitoring service and the customer receives a notification to confirm that the UPS is ready to be supervised*

**The remote monitoring is activated as soon as the UPS and the Network card have been set.*

Find the right reference for your equipment:
