Altocumulus Group
Quarterly Earnings Report
 New clothing collection boosts revenue by 25%

Now the second largest clothing retailer in the U.S., Altocumulus Group posted a net profit of \$82 million, or 0.26 per share, from 562.7 million, or 0.22 per share, a year earlier. Revenue for the quarter was \$2.35 billion, up 25 percent from the same period last year. Gross margin was 27 percent, up from 25.8 percent last year.

All of Altocumulus Group's brands did well this quarter. Altocumulus stores led the way, with sales rising 22.8 percent, to \$2.8 billion, with same-store numbers up 6 percent. Kuma stores had an 18 percent increase in sales, to \$300 million and same-store sales increased 13 percent. Sales for Stripes stores were up 5.7 percent to \$45 million.

"It was an extraordinary quarter," said CEO Sandra Blumenthal. "We are pleased to report our highest fourth quarter revenue since first opening our doors in 1992."

The new private-label clothing collection has been key to the recent high figures. With 10 new lines for men, women, and children, the collection appeals to shoppers of all ages and income levels. T-shirts have been most popular of all, and Altocumulus Group stores sold over 1.3 million T-shirts in the first month after the lineup launch, netting \$15.6 million in gross sales.

Regarding the new lineup, one shopper said, "It's everything I ever wanted in a brand. High-quality fabrics, great color choices, modern, yet classic styling. And, only that, it's easy to find what I want, the price is right, and there's always something new—used to come to shop twice a week!"

"Brand awareness—and as a result, sales—is through the roof," said Sydney Tyne, CEO of Altocumulus Group. "This is due in part to our extensive efforts with focus groups, and collaborating with wardrobe designers for the collection."

The company does not provide a quarterly earnings outlook, but predicts even greater earnings for the next quarter.

UNIQUE ULTRA-SLIM DESIGN AND EFFORTLESS SCANNING

Fast, high quality scanning

Scanning made easier with the super-compact and intelligent imageFORMULA DR-C225 II/DR-C225W II—ideal for small office and counter-top environments. The DR-C225W II's built-in Wi-Fi allows wireless scanning from mobile, tablet and PC devices.

Boosting your productivity

To reduce delays and keep production levels high the DR-C225 II/W II offers easy 'one-touch' scanning. Pressing the scanner's start button boots up your CaptureOnTouch software application and gets you ready to scan in seconds. Canon takes innovation forward with the scanner's intuitive natural feeding concept. This allows users to feed documents into the scanner face up, in their natural orientation.

SMALL, SPEEDY AND STYLE-CONSCIOUS SCANNERS

Slim profile, unique design

With its innovative and space-saving vertical J-Path design the DR-C225 II/W II sets the standard for ultra-compact desktop scanners. The vertical J-Path design allows documents to be fed and received vertically, so no extra desk space is required. Side-mounted cables and ports let you place both devices directly against a rear wall, or even on a shelf, for the ultimate in space-saving convenience.

Simple, intuitive scanning

The DR-C225 II/W II have been designed to encourage easy scanning with an array of intuitive features. The Full Auto Mode feature (when using CaptureOnTouch software) automatically applies the best settings for key document parameters - including text orientation, page size detection, colour, resolution and skip blank page, saving you time and effort.

Extremely versatile and reliable

The DR-C225 II/W II can handle a varied mix of document types. By switching to straight-through path you can scan A3 sized documents (in folio mode), thick documents, embossed cards and 3 metre long documents with ease.

The reliable ultrasonic Double Feed Detection feature accurately detects when more than one sheet is fed simultaneously, which can prevent important information from being lost or missed.

Fast, high quality scanning

The DR-C225 II delivers impressive double-sided scanning speeds, while the DR-C225W II with Wi-Fi offers greater productivity for scanning documents directly to smart devices. Equipped with a CMOS CIS (Contact Image Sensor) unit; high quality images can be produced allowing better text readability for enhanced OCR (Optical Character Recognition) accuracy.

SCAN WITH WI-FI TO MOBILE, PC AND TO THE CLOUD

DR-C225W II

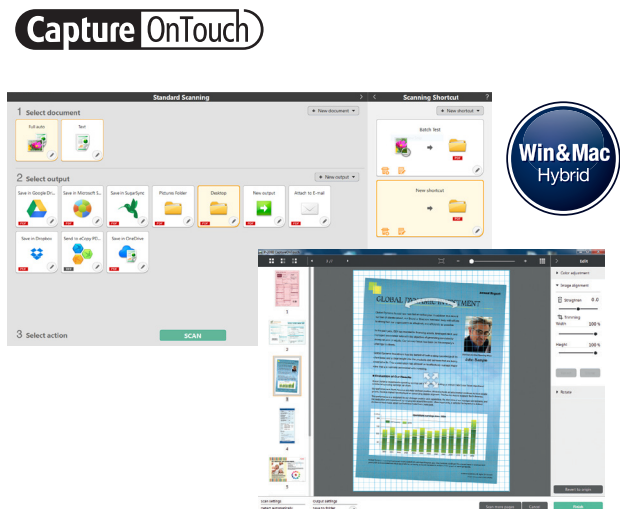

The DR-C225W II with built-in Wi-Fi technology delivers an enhanced customer experience with efficient batch capture of information to mobile / smart devices. Businesses can also share the DR-C225W II wirelessly, amongst office departments by downloading the Canon Wireless Connection Setup Tool / Network Monitor to enable wireless scanning from your PC.

CaptureOnTouch Mobile App

Scan direct to your iPhone®, iPad® and Android device with the free CaptureOnTouch Mobile App. It comes with advanced image processing tools such as automatic size detection, deskew and skip blank page giving consistently superior image quality results.

POWERFUL SOFTWARE BUILT FOR INTEGRATION AND PERFORMANCE

With Canon's CaptureOnTouch you can easily scan paper documents into various digital formats, and save them to multiple destinations, including cloud services. It incorporates "one touch" scanning and advanced image processing tools for simplifying the scanning operation and ensuring high quality results. It is also possible to edit the settings of already scanned images, eliminating the need to redo any scans. What's more you scan up to 3 file output destinations in one step.

A powerful, easy-to-use desktop application that creates, edits and converts PDFs enabling collaboration like never before (compatible with Windows only).

Cardiris

Scan business cards to convert and organise important information into a searchable database (compatible with Windows).

¹ Scanning speeds depend on the specification of PC and the settings of function.
² Software Developer Kits are available through the Canon Business Solutions Developer Programme – www.canon.europe.com/bsdp
³ These options are only available for the DR-C225 II.

Handle exceptions with optional flatbed

Scan bound books, journals and fragile media by adding the Flatbed Scanner Unit 102 for documents up to A4 or Flatbed Scanner Unit 201 for A3 scanning. Connected by USB, these flatbed scanners work seamlessly with the DR-C225 II (only) in a smooth dual-scanning operation that lets you apply the same image-enhancement features to any scan.

A4 Flatbed Scanner Unit 102

A3 Flatbed Scanner unit 201
