

HEADPHONES W/MIC

HA701

DESCRIPTION

The Over-Ear Headphones w/ Mic from V7 are designed for hours of use and feature an adjustable headband and soft earcups for comfort. The over-ear design provides passive noise cancellation so that you hear less of your surroundings and can focus on your audio content. The headphones have a flexible, braided cable and call/volume controls on the cable for quick and easy adjustments. Additionally, the foldable design makes it easy to take them with you anywhere you go.

TECHNICAL SPECS

- Passive noise cancellation – full-sized, on-ear construction isolates from outside noise so you can hear the deep bass, and crisp mids and highs of your audio
- Built for comfort: Adjustable headband, lightweight design and soft, rotatable earcups for maximum comfort
- Hands-free Talking And Volume Control: The built-in mic, and volume control lets you pick up calls without missing a beat
- Flexible and durable braided cable and sturdy 3.5 mm stereo plug
- Foldable design –Take your headphones wherever you go. Just fold them up, twist up the cord, and go
