## ARTICONA GRS Versatile Backpack 15.6

Article number: 4821711

ARTICONA gives the plastic of the used bottles a „second life“ by reusing this resource. As a result, the plastic bottles do not end up as waste in the ocean but are turned into bags. A second life to serve a good cause and protect your work equipment.

How recycled and dyed polyester, as used in this product, can itself be recycled and reused, so that the „third“ and „fourth Life“ of the raw material can also be achieved, is still a matter of scientific research. Enabling a „second life“ of resources is already special in this textile area, because only 15% of the polyester used consists of recycled material - recycled PET bottles, as recycling of the dyed fabric is not yet possible (July 2022).

With this ARTICONA backpack, we are participating in the circular economy through the verifiable use of recycled materials, as far as this is currently possible. Are you in?

### Highlights:

- Spacious, versatile backpack for notebooks and tablets
- Perfect for business trips or everyday use
- Convertible for different uses thanks to the practical design
- Optimum storage space in a compact form
- Water-repellent material
- Double zipper on the main compartment
